NOTES

The drawing is copyright of Condy and Lofthouse Ltd and may not be reproduced in any way without their specific permission.

All dimensions are to be checked on site. Do not scale from the drawing, work to figured dimensions only. Any queries please contact the architects.

This drawing has been prepared based upon a digital survey undertaken by CLA, tel 0151 207 4371.

MATERIALS PROHIBITED

Materials prohibited from use, and materials used in accordance with "good practice in the selection of construction materials (2002)"

- High alumina cement in load bearing structures.
- Woodwool slabs used as permanent formwork in structural elements.
- Calcium chloride used as an additive in mixing concrete for use in reinforced concrete.
- Aggregates for use in reinforced concrete which do not comply with British standard specifications current at the date of specification of the material.
- Calcium silicate bricks or tiles.
- Asbestos or asbestos based products including concrete.
- Lead or any materials containing lead which may be ingested, inhaled or absorbed.
- Urea formaldehyde foam or materials which may be hazardous with reference to the risks to the health & safety exercise of the date of specification of the materials.
- Materials which are generally composed of mineral fibres either man made or naturally occurring which have a diameter of 3 microns or less and a length of 200 microns or less, or which contain any fibres harmonised or otherwise classified in a way that fibre migration is prevented.
