Electricity Act 1989: Overhead Lines (Exemption)(England and Wales) Regulations 2009

It is proposed to undertake the following work that is considered to be exempted from the Electricity Act 1989 by falling within the Overhead Lines (Exemption)(England and Wales) Regulations 2009:

Grimethorpe - Monckton 66kV OHL - Poles 80 - 54 are to be rebuilt on line using a modern equivalent wood pole design.

Particulars of proposed development to be completed by Applicant:

As part of the on-going improvement works to our overhead electrical network in the Wakefield/Barnsley area it is proposed to rebuild approx 3.7 km of an existing 66kV wood pole line (between supports 54 - 80) along the route of the existing overhead electric line. I have attached a copy of drawing number C1007027 showing numbered the existing section of the overhead electric line. These works are deemed as minor by The Department of Energy and Climate Change and therefore fall within the exemption regulations.

The Council/Authority is requested to indicate that it has no objection to the work being carried out by returning two copies of this Form with the Certificate completed and signed.

Yours Faithfully
