HERITAGE STATEMENT

ADDRESS: 106, Wath Road, Elsecar, Barnsley, S74 8JF

As the owners of the above address we know the property is a grade II listed building and has particular historic and/or architectural significance and is subject to regulations which protects it's unique character.

Having been in contact with Mr Tony Wiles (conservation officer Barnsley planning Dept.) we know that the proposed rear fence needs to be all timber and no higher than one metre to protect the setting.

The fence will be nine metres long, one metre high, supported by six wooden fence posts.

The boards will be 150mm wide x 1.8m long.

The gap in-between each horizontal board will be 150mm.

The proposed fence design is in keeping with other fencing at the rear of neighbouring houses.
