Dear Diane Perry,

I write to confirm that the above proposal for the replacement of an existing 25.0m monopole with a 30.0m high-capacity monopole supporting 6 no antenna apertures, 4 no dishes, together with the installation of 8 no ground-based equipment cabinets and ancillary development, will require a full application in line with Part 16, C (i) of the GPDO.

Due to the nearest school being 520m distant from the mast as well as being adjacent to a commercial area, the likelihood of an approval is high – though any potential to decrease the mast's width would further increase such an outcome.

Kind regards,

Richard Gilbert

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
