Our Ref MC

9th August 2011.

Dear Sir/Madam.

ARBORICULTURAL SURVEY, 48 HEMINGFIELD ROAD, WOMBWELL

I refer to your recent request for further information in respect of the tree surgery work at the above site in respect of the safe access to the site.

1 In order to facilitate the safe access and egress of vehicular traffic into the site, it will be necessary to carry out routine crown lifting works on the trees that are situated in the borders adjacent to Hemingfield Road.

2 This is only minimal works and can be carried out without spoiling the natural shape and habit of the trees concerned. Where possible small lateral branches will be removed as opposed to major limbs.

3 There is a dead Laburnum tree near to the main entrance that should also be removed.

4 All tree surgery work should be carried in accordance with ***British Standard Institute Specification 3998, Tree Surgery work;***

For any further information required in respect of tree surgery works at the above property please do not hesitate to give me a call

Yours faithfully
.

Mick Cooper
