Proposed Garage Extension Floorplan

Scale (1:50)

Annotation.

1) Walls to be constructed using concrete blocks 100mm thick.

2) Pillars using same block to be built no more than 2.5m apart & full height.

3) Blockwork to be rendered to match existing house & coloured corner coins.

* 4) Door to be revised from original plan to now be 3000mm wide & roller shutter type.

5) New blockwork to be tied into existing house walls using sabre fix "type" fixings.
