Statement of Intent

I James Exley for several years now have carried out the role of registered carer at no: 3 Fir Tree Gardens, Birdwell, Barnsley, S70 5UT. It is now my intention to apply for a change of use at the above address from family home to Registered Home. This would be for the care and support of people with brain injuries, dementia, physical and learning disabilities. This proposal will incorporate one manager and no more than 3 staff to cover a 24 hour 7 day a week period. This will include myself and my wife. I see no problems with parking space as I can comfortably accommodate at least 4 cars. I see no major changes to the outside of the building perhaps a handrail to the front door and rear gardens fenced off so it is secluded. I have no intention of any bill board advertising anywhere inside or outside the home, there will be no signage. In essence there are no major changes to what my wife and I have been doing and offering for several years now at the above address. It is just a case of offering our services to a wider client group.

Ensuring you of our best intentions.

James Exley
