Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance.
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.

Description

Please describe details of the proposed development or works including any change of use

The proposal is to create small attenuated flood storage ponds that will help alleviate localised flooding. This is supported by and part of the Don Catchment Rivers Trust project with both environmental and flood storage storage objectives.
Additional to the flood storage will be residual permanent or semi permanent small wildlife ponds. These will form below the level of the attenuated outfalls to provide new habitat that enhances the overall value of the grassland and gully.
