The ground floor will be accessible to the public, and includes an accessible toilet. The rooms upstairs are for private let to artists and the gallery's own use for artistic activity. The existing bathroom will be refurbished on the first floor for use by the artists using the space. A new level access into the ground floor space will be created through what is currently a window allowing easy access from the garden - this is the only exterior visual change. We will be changing its use from its current residential status to enable this new use.

This is largely a refurbishment programme to include new doorway as detailed above and on plans, form and fit out accessible WC and modify head of cellar stair, new access between two of the first floor rooms, new internal doors and skirting, upgraded heating and plumbing, new bathroom fittings on first floor, electrical modifications, new intruder detection, new lighting, floor coverings, kitchen installation and internal and external decoration.
