Supply Letter

Nexus - Capitol Park
Barnsley

To whom it may concern,

Telcom Networks Ltd can confirm that we have been commissioned by Carnell Management Services Ltd to provide internet services across Nexus Capitol Park. This consists of Telcom owned fibre cabling in the duct system which can support speeds of upto 1Gbps. Tenants of the park are able to get connected to high speed full fibre broadband within 28 days.

The fibre optic cables are terminated in all units across the park & we are currently installing these to Units 17 & 18 as per the contractors program. Our fibre is blown through our existing fibre tubing network to site and installed in our distribution boxes or comms cabinets.

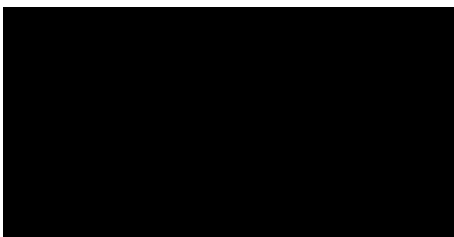

Tenants are able to access different packages depending on their needs -

Various DIA products(symmetrical speeds) - upto 1Gbps
Business Broadband Plus - Shared 100Mb

Please see further details of pricing on the splash page for site - <https://connect.telcom.uk/unit-1-capitol-close-barnsley>

Telcom Networks Ltd is not liable for any loss, damage or costs in connection with the subject matter of this letter, including but not limited to, the network build and use of the network.

Yours faithfully,

Anthony Hamlett
Head of Connected Buildings
Telcom Networks Ltd
