

GRANT OF PLANNING PERMISSION

TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO. 2021/1642

To Charlotte Hatton
Unit 2 Mariner Court
Peel Avenue
Durkar
Wakefield
WF4 3FL

DESCRIPTION Residential development of 179 dwellings and associated works
LOCATION Land off Smithywood Lane and Calver Close, Gilroyd, Barnsley

Permission is **granted** for the proposals which were the subject of the Application and Plans registered by the Council on 16/12/2021 and described above.

THIS DECISION IS SUBJECT TO THE TERMS OF THE AGREEMENT MADE UNDER SECTION 106 OF THE TOWN AND COUNTRY PLANNING ACT 1990 (AS AMENDED).

The approval is subject on compliance with the following conditions:

- 1 The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.
Reason: In order to comply with the provision of Section 91 of the Town and Country Planning Act 1990.

- 2 The development hereby approved shall be carried out in substantial accordance with the plans and specifications as approved unless required by any other conditions in this permission. The approved plans and reports are;

Detailed Landscape Proposals - Additional Land 3482-4A

Reason: In the interests of the visual amenities of the locality and in accordance with Local Plan Policy D1 High Quality Design and Place Making.

- 3 Construction or remediation work comprising the use of plant, machinery or equipment, or deliveries of materials shall only take place between the hours of 0800 to 1800 Monday to Friday and 0900 to 1400 on Saturdays and at no time on Sundays or Bank Holidays.
Reason: In the interests of the amenities of local residents and in accordance with Local Plan Policies GD1 General Development Policy and POLL1 Pollution Control and Protection.

- 4 All in curtilage planting, seeding or turfing comprised in the approved details of landscaping shall be carried out on each plot no later than the first planting and seeding season following the occupation of the individual dwellinghouse/s; and any trees or plants which die within a period of 5 years from first being planted, are removed, or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species.
Reason: In the interests of the visual amenities of the locality, in accordance with Local Plan policies GD1 'General Development' and D1 'High Quality Design and Place Making'.
- 5 All out of curtilage planting, seeding or turfing comprised in the approved details of landscaping shall be carried out in full in accordance with the approved Landscape Implementation Plan (Ref:4187-411).
Reason: In the interests of the visual amenities of the locality, in accordance with Local Plan policies GD1 'General Development' and D1 'High Quality Design and Place Making'
- 6 The landscape management of the approved development shall be carried out in accordance with the approved Landscape Management Plan (Landscape Management Specification by Rosetta Landscape Design).
Reason: In the interests of the visual amenities of the locality and in accordance with Local Plan Policy BIO1 Biodiversity.
- 7 The parking/manoeuvring facilities, indicated on the submitted plan, shall be surfaced in a solid bound material (i.e. not loose chippings) and made available for the manoeuvring and parking of motor vehicles prior to occupation, and shall be retained for that sole purpose at all times.
Reason: To ensure that satisfactory off-street parking/manoeuvring areas are provided, in the interests of highway safety and the free flow of traffic and in accordance with Local Plan Policy T4 New Development and Transport Safety.
- 8 Pedestrian intervisibility splays having the dimensions of 2 m by 2 m shall be safeguarded at the drive entrance/exit such that there is no obstruction to vision at a height exceeding 1m above the nearside channel level of the adjacent highway.
Reason: In the interest of road safety in accordance with Local Plan Policy T4 New Development and Transport Safety.
- 9 No development shall take place, including any works of demolition, until a Construction Method Statement has been submitted to, and approved in writing by, the Local Planning Authority. The approved statement shall be adhered to throughout the construction period. The statement shall provide for:
 - i. The parking of vehicles of site operatives and visitors
 - ii. Means of access for construction traffic
 - iii. Loading and unloading of plant and materials
 - iv. Storage of plant and materials used in constructing the development
 - v. Measures to prevent mud/debris being deposited on the public highway.**Reason: In the interests of highway safety in accordance with Local Plan Policy T4 New Development and Transport Safety.**
- 10 All surface water run off shall be collected and disposed of within the site and shall not be allowed to discharge onto the adjacent highway.
Reason: In the interests of highway safety in accordance with Local Plan Policies T4 New Development and Transport Safety and POLL1 Pollution Control and Protection.

- 11 No development shall take place unless and until full foul and surface water drainage details, have been submitted to and approved in writing by the Local Planning Authority. Thereafter no part of the development shall be occupied or brought into use until the approved scheme has been fully implemented. The scheme shall be retained throughout the life of the development unless otherwise agreed in writing with the Local Planning Authority.
Reason: To ensure the proper drainage of the area in accordance with Local Plan Policy POLL1 Pollution Control and Protection.
- 12 No development approved by this permission shall be commenced until a scheme for the provision and implementation of a surface water run-off limitation into the culverted watercourse has been submitted to and approved in writing by the Local Planning Authority. The scheme shall be implemented in accordance with an approved programme and details.
Reason: To prevent the increased risk of flooding in accordance with Local Plan Policy POLL1 Pollution Control and Protection
- 13 Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 1995 (or any Order revoking or re-enacting that Order with or without modification), no building or structure shall be placed or erected within 3 metres of the Public Sewer shown on the approved plan.
Reason: To prevent damage to the existing Public Sewer in accordance with Local Plan Policy POLL1 Pollution Control and Protection.
- 14 No development shall be commenced until full engineering, drainage, street lighting and constructional details of the streets proposed for highway adoption have been submitted to and approved in writing by the LPA. The development shall, thereafter, be constructed in accordance with the approved details unless otherwise agreed in writing with the LPA.
Reason: To ensure that the internal streets are planned and approved in good time to a satisfactory standard for use by the public in the interests of highway safety.
- 15 No building or use hereby permitted shall be occupied (or use commenced) until details of arrangements for the future management and maintenance of proposed carriageways, footways, footpaths and landscaped areas not put forward for adoption as maintainable at public expense within the site have been submitted to and approved in writing by the LPA. On occupation of the first dwelling (or building) within the site, the streets shall be maintained in accordance with the approved management and maintenance details.
Reason: To ensure that all private streets and landscaped areas are appropriately managed and maintained to ensure the safety of all users in accordance with Local Plan Policy T4 New Development and Transport Safety.
- 16 Before any dwelling is first occupied the roads and footways shall be constructed to binder course level from the dwelling to the adjoining public highway at Smithywood Lane and Calver Close in accordance with details of a phasing and completion plan to be submitted and approved in writing by the LPA.
Reason: To ensure streets are completed prior to occupation and satisfactory development of the site in accordance with Local Plan Policy T4 New Development and Transport Safety.
- 17 No development / construction hereby approved shall commence until a Construction Traffic Management Plan has been submitted to and approved in writing by the Local Planning Authority, in consultation with National Highways.
Reason: To manage construction traffic impacts for the M1 and ensure the safe and efficient operation of the SRN in accordance with Local Plan Policy T4 New Development and Transport Safety.

- 18 Notwithstanding the provisions of the Town and Country Planning (General Permitted Development (England) Order 2015 (or any Order revoking and/or re-enacting that Order), the garages/car parking spaces hereby permitted shall be retained as such and shall not be used for any purpose other than the garaging of private motor vehicles associated with residential occupation of the property and ancillary domestic storage without the grant of further specific planning permission from the LPA.
Reason: To retain the garages/car parking spaces for parking purposes in accordance with Local Plan Policy T4 New Development and Transport Safety.
- 19 No development shall take place until a survey of the condition of the adopted highway condition to be used by construction traffic has been submitted to and approved in writing by the LPA. The extent of the area to be surveyed must be agreed by the LHA prior to the survey being undertaken. The survey must consist of:
- i. A plan to a scale of 1:1250 showing the location of all defects identified
 - ii. A written and photographic record of all defects with the corresponding location references accompanied by a description of the extent of the assessed area and a record of the date, time and weather conditions at the time of survey.
- On completion of the development, a second condition survey of the adopted highway shall be carried out to identify defects attributable to the traffic associated with the development. It shall be submitted for the written approval of the Local Planning Authority. Any necessary remedial works shall be completed at the developer's expense in accordance with a scheme to be agreed in writing by the Local Planning Authority.
Reason: To ensure that any damage to the adopted highway sustained throughout the development process is identified and subsequently remedied at the expense of the developer in interests of highway safety in accordance with Local Plan Policy T4 New Development and Transport Safety.
- 20 Upon commencement of development a scheme for the parking of bicycles complying with LTN 1/20 Cycle Infrastructure Design shall be submitted to and approved in writing by the Local Planning Authority. The bicycle parking shall be made available prior to the occupation of the associated dwelling and thereafter retained for this purpose.
Reason: In the interests of encouraging the use of sustainable modes of transport in accordance with Local Plan Policy T3.
- 21 The gradient of vehicular accesses and driveways shall not exceed 1 in 12 as measured from the edge of adjacent carriageway.
Reason: In the interests of the safety of persons using the access and users of the highway in accordance with Local Plan Policy T4 New Development and Transport Safety.
- 22 The approved Travel Plan (Optima - Nov 2021 - Revision 3) shall be implemented in accordance with the measures and monitoring regime set out therein.
Reason: To ensure that the development offers a wide range of travel choices to reduce the impact of travel and transport on the environment in accordance with LP Policy T3 New Development and Sustainable Travel.

Informative(s)

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 (as amended), the Local Planning Authority have, where possible, made a pre-application advice service available, and otherwise actively engaged with the applicant in dealing with the application in a positive and proactive manner.

- 1 The granting of planning permission does not in any way infer that consent of the landowner is given. Therefore, the consent of all relevant landowners is required before proceeding with any development, including that of the Council as landowner.

If it should transpire that the applicant does not own any of the land included in this consent, then it is the responsibility of the applicant to seek all necessary consents and approvals of the landowner.

- 2 The granting of planning permission does not affect the status of species such as owls and bats, which have protection under other legislation. These may be present and it is the applicant's responsibility to seek advice on how to avoid damaging operations. Further advice can be obtained from the Countryside Unit in the Planning & Transportation Services, on 01226-772576, or directly from www.naturalengland.org.uk
- 3 The CTMP shall include but not be limited to the following:
 - Details of construction timescales, start / finish times, and associated periods of traffic movements to the site which should actively seek to minimise movements via the SRN during peak hours.
 - Details of construction traffic volumes and routeing to the site including the location of waiting areas which should not be in the vicinity of the SRN.
 - Measures to ensure that vehicles leaving the site do not deposit mud or other detritus on the strategic and local highway network.
 - Abnormal load movements must be agreed with National Highways via the Electronic Service Delivery for Abnormal Loads (ESDAL) system in advance
- 4 Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Coal Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain a Coal Authority Permit for such activities is trespass, with the potential for court action.

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848. Further information is available on the Coal Authority website at:

www.gov.uk/government/organisations/the-coal-authority

- 5 If the developer is to make discharge flows to the existing watercourse he must gain the written agreement of the Land Drainage Authority to discharge flows at an agreed rate - highwaydrainage@barnsley.gov.uk
- 6 If the developer is to carry out works within or in the proximity of any watercourse he must gain the relevant permissions from the Lead Local Flood Authority - highwaydrainage@barnsley.gov.uk

- 7 The development hereby approved includes the creation of/carrying out of alterations to vehicular access(es). You are advised that before undertaking work on the adopted highway you will require a Section 184 licence from the Highway Authority. The works shall be to the specification and constructed to the satisfaction of the Highway Authority. Fees are payable for the approval of the highway details, and inspection of the works. Further information and an application form are available on the BMBC website at <https://www.barnsley.gov.uk/services/roads-travel-and-parking/parking/dropped-kerbs/> or please contact at email Streetworks@barnsley.gov.uk or call to 01226 773555.
- 8 The development hereby approved includes the carrying out of work on the adopted highway. You are advised that before undertaking this work you must enter into a highway agreement with the Council under S278 of the Highways Act, 1980, specifying the extent of works, the works, and the terms and conditions under which these are carried out. Fees are payable for the drafting of the agreement, approval of the highway details and inspection of the works. For more information or to apply, please contact Highways Development Control at email HighwaysDC@barnsley.gov.uk or call to 01226 773555.
- 9 Roads other than agreed shared private drives shall be constructed to an adoptable standard and offered for adoption on completion under (the provisions) Section 38 of The Highways Act (1980). Engineering and surface water drainage details shall be submitted for inspection and approval in writing by the (Local Planning Authority) Highways Authority before works commence on site. The applicant should make contact with Highways Development Control, Tel. 01226 772033/772170. Email. HighwaysDC@barnsley.gov.uk as soon as possible to arrange the setting up of the agreement.
- 10 The development hereby approved is subject to Independent Road Safety Audits to be carried out in accordance with the requirements of the Local Highway Authority and Design Manual for Roads & Bridges GG119 Road Safety Audits. All relevant technical information is to be made available to the Road Safety Audit team.
- 11 The contractor shall ensure that no vehicle leaving the development hereby permitted enters the public highway unless its wheels and chassis are clean. It should be noted that to deposit mud and debris on the public highway is an offence under provisions of the Highways Act 1980.
- 12 Planning permission does not infer any other consent is given and it is the responsibility of the applicant to ensure that all other permissions are in place before development commences. The developer must contact Highways, Engineering & Transportation on 01226 773555 prior to any work commencing on site, to gain all necessary technical and legal approvals relating to the creation/alteration/reinstatement and removal of vehicular accesses to the highway.

Please be aware that the Council monitors construction sites and open land within the vicinity of such sites in an attempt to prevent fly tipping (i.e. unauthorised deposit of waste on land), which is illegal under the Environmental Protection Act 1990. The penalties for fly-tipping can include:

- a fine of up to £50,000 and
- up to six months imprisonment on conviction.

Therefore, if necessary, please ensure that all demolition waste and waste associated with the construction of any development is disposed of via approved methods and that documents are retained to prove this.

Signed:

Dated: 5 December 2024

A handwritten signature in black ink, consisting of a stylized 'G' and 'H' followed by a horizontal line.

Garry Hildersley

Head of Planning, Policy & Building Control
Growth & Sustainability Directorate

The grant of this consent does not constitute or imply permission, approval or consent by the Local Authority for any other purpose.

NOTES:-

Appeals to the Secretary of State

If you are aggrieved by the decision of the Council to grant permission for the proposed development subject to conditions then you can appeal to the Secretary of State for the Environment, Transport and Regions under Section 78 of the Town and Country Planning Act. If you want to appeal, then you must do so within six months of the date of this notice, using a form which you can get from The Planning Inspectorate, Room 3/24 Hawk Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the provisions of the development order and to any directions giving under the order. In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based its decision on a direction given by him.

Purchase Notices

If either the Local Planning Authority or the Secretary of State for the Environment, Transport and Regions refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of part VI of the Town and Country Planning Act 1990.

Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference to the application to him. These circumstances are set out in Sections 114 and related provisions of the Town and Country Planning Act 1990.

STATUTORY BIODIVERSITY NET GAIN CONDITION

DEEMED CONDITION

(As required Schedule 7a of the Town and Country Planning Act 1990 (as amended) and inserted by the Environment Act 2021)

Development may not be begun unless:

1. A Biodiversity Gain Plan has been submitted to the planning authority; and
2. The Local Planning Authority has approved the plan.

The Biodiversity Gain Plan must include:

- a) information about the steps taken or to be taken to minimise the adverse effect of the development on the biodiversity of the onsite habitat and any other habitat;
- b) the pre-development biodiversity value of the onsite habitat;
- c) the post-development biodiversity value of the onsite habitat;
- d) any registered offsite biodiversity gain allocated to the development and the biodiversity and the biodiversity value of that gain in relation to the development;
- e) any biodiversity credits purchased for the development; and
- f) any such other matters as the Secretary of State may by regulations specify.

In addition, under Articles 37C(2) and 37C(4) of The Town and Country Planning (Development Management Procedure) (England) Order 2015, the following specified matters are required, where development is not to proceed in phases:

- g) name and address of the person completing the Plan, and (if different) the person submitting the Plan;
- h) a description of the development and planning permission reference number (to which the plan relates);
- i) the [relevant date](#), for the purposes of calculating the pre-development biodiversity value of onsite habitats and if proposing an earlier date, the reasons for using this earlier date;
- j) [the completed biodiversity metric calculation tool\(s\)](#), stating the publication date of the tool(s), and showing the calculation of the pre-development onsite value on the [relevant date](#), and post-development biodiversity value;
- k) a description of arrangements for maintenance and monitoring of habitat enhancement to which paragraph 9(3) of Schedule 7A to the 1990 Act applies (habitat enhancement which must be maintained for at least 30 years after the development is completed);
- l) (except for onsite irreplaceable habitats) a description of how the biodiversity gain hierarchy will be followed and where to the extent any actions (in order of priority) in that hierarchy are not followed and the reason for that;
- m) pre-development and post-development plans showing the location of onsite habitat (including any irreplaceable habitat) on the [relevant date](#), and drawn to an identified scale and showing the direction of North;
- n) a description of any [irreplaceable habitat](#) on the land to which the plan relates which exist on the [relevant date](#), and any part of the development for which planning permission is granted where the onsite habitat of that part is irreplaceable habitat arrangements for compensation for any impact the development has on the biodiversity of the irreplaceable habitat; and
- o) if [habitat degradation](#) has taken place:
 - i. a statement to this effect,
 - ii. the date immediately before the degradation activity,
 - iii. the completed biodiversity tool showing the calculation of the biodiversity value of the onsite habitat on that date, and
 - iv. any available supporting evidence for the value.

INFORMATIVE 1

When calculating the post-development biodiversity value of a habitat, the Local Planning Authority can only take into account an increase in biodiversity value post-development where it is satisfied that the habitat creation or enhancements delivering the increase will be maintained for at least 30 years after the development is completed. This must be secured either by a planning condition, planning obligation, or conservation covenant

INFORMATIVE 2

The General Biodiversity Gain Condition has a separate legal basis in contrast to other planning conditions and will apply to all planning permissions, unless exempt. The General Biodiversity Gain Condition will therefore not appear on the decision notice along with the list of planning conditions imposed on the application, rather it will be referenced separately.

The General Biodiversity Gain Condition cannot be varied or removed by an application under section 73 of the Town and Country Planning Act. It also cannot be discharged as part of the grant of planning permission.

INFORMATIVE 3

A Biodiversity Net Gain Template can be found here:

<https://www.gov.uk/government/publications/biodiversity-gain-plan>

INFORMATIVE 4

The statutory deemed condition above is relevant to all major applications submitted since 12th February 2024 and to all non-major applications submitted after 2nd April 2024, unless exempt. The onus is on the applicant/agent to notify the Local Planning Authority at developmentmanagement@barnsley.gov.uk if the application was exempt and provide the reasons for the exemption. Exemptions can be found at this link

<https://www.gov.uk/guidance/biodiversity-net-gain-exempt-developments>
