

## PLANNING CONSULTATION RESPONSE

<b>Application No</b>	2025/0915
<b>Proposal</b>	Installation of 2no. liquid oxygen storage vessels with vaporisers for medical gas use with associated security and screen fencing and artwork.
<b>Address</b>	Barnsley District General Hospital, Gawber Road, Old Town, Barnsley, S75 2EP
<b>Date of Consultation Reply</b>	10/02/26
<b>Consultee</b>	Nik King, Senior Urban Design Officer

### Consultation Assessment and Justification

These are the second set of design comments on planning application 2025/0915. These are in the light of amendments and additional information provided by the applicant, received on 3<sup>rd</sup> February.

I note that the artist has provided a response to all of my previous queries raised in the first set of design comments, which is much appreciated.

I note the progression of each of the three artwork designs- a tree design on the cylinders will hopefully be easier to reproduce through painting than a detailed flower head design, the corten steel design has a high degree of transparency and the bolder design of the animal shapes on the (cleaned) concrete retaining wall will help to make the pedestrian environment a bit more friendly and joyful.

I note the annotation on the proposed site plan regarding proposed changes to the lighting in the vicinity.

Given the tight funding timescales, I am fine with your suggestion that the final designs of the three artworks and their setting are confirmed by condition. I would suggest that finalised detail of the changes of the lighting is annotated on the proposed site plan, (rather than be dealt by a separate condition).

**No Objections**

#### Consultation Suggested Conditions:

- Detailed designs for the three artworks and their setting

#### Consultation Informative(s):

#### Planning Obligations required:
