Condition(s) - Variation/Removal

Please state why you wish the condition(s) to be removed or changed

The current wording of the condition restricts the operational life of the turbines to 25 years. It is requested to amend this to extend the operational life to 40 years in order to be able to maximise the renewable energy output from an existing site and contribute to local and national targets.

With the regular maintenance, wind turbines are known to be able to operate effectively for an extended lifespan, as such, operational life extensions in the vicinity of 40 years and beyond are becoming increasingly common within the UK renewable energy sector and are consistent with evolving industry standards and policy support for maximising renewable energy generation from existing sites.

If you wish the existing condition to be changed, please state how you wish the condition to be varied

Decommissioning of the wind farm shall take place within 40 years of the date of commissioning. The LPA shall be notified in writing of the date of commissioning and the date of decommissioning of the wind farm within one month of the appropriate date.

Reason: To establish the dates of commissioning and decommissioning of the wind farm and to assist in effective monitoring of the site.
