Consultation Assessment and Justification

Barnsley Children's Services would not be I support of this planning application.

We already have 146 supported accommodation placements in Barnsley most of which are taken by young people from other local authorities.

This placed an immense and growing pressure on local resources including GP and dental registration, college places and on SYP due to young people being missing from placements and being involved in ASB and offending behaviours.

These concerns are further aggravated by the fact that this proposed provision does not seem to have staff on site 24/7.

Barnsley would therefore not use such a provision meaning all 4 placements would only be accessed by yp from other areas. It would also seem very clear that the lack of staff support and oversight would only serve to increase the risk of ASB in the local area and cause immense disruption to the neighbours.
