

BARNSLEY
Metropolitan Borough Council

GRANT OF OUTLINE PLANNING PERMISSION

TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO. 2010/0825

To Mr A Lupton
Beckwith Design Associates Ltd
The Studio
53 Leeds Road
Bradford
West Yorkshire
BD1 5AF

DESCRIPTION Residential development (Outline)
LOCATION Land between Millhouses Street, King Street, Noble Street and Elsecar Railway Station, Elsecar, Barnsley, S Yorks

Permission is granted for the proposals which were the subject of the Application and Plans registered by the Council on 12 July 2010 and described above.

The approval is subject on compliance with the following conditions:

- 1 The development hereby permitted shall not be commenced unless and until approval of the following reserved matters has been obtained in writing from the Local Planning Authority:-
 - (a) the layout of the proposed development.
 - (b) scale of building(s)
 - (c) the design and external appearance of the proposed development.
 - (d) landscaping

Reason: In order to allow the Local Planning Authority to assess the details of the reserved matters with regard to the development plan and other material considerations.

The grant of this consent does not

constitute or imply permission,
approval or consent by the Local
Authority for any other purpose.

Signed

Stephen Moralee

Assistant Director, Planning and Transportation

Dated 29 September 2010

- 2 Application for approval of the matters reserved in Condition No. 1 shall be made to the Local Planning Authority before the expiration of three years from the date of this permission, and the development, hereby permitted, shall be begun before the expiration of two years from the date of approval of the last of the reserved matters to be approved.
Reason: In order to comply with the provision of Section 92 of the Town and Country Planning Act 1990.
- 3 Detailed plans shall accompany the reserved matters submission indicating existing ground levels, finished floor levels of all dwellings and associated structures, road levels and any proposed alterations to ground levels. Thereafter the development shall proceed in accordance with the approved details.
Reason: To enable the impact arising from need for any changes in level to be assessed and in accordance with UDP Policy BE6, Design Standards.
- 4 Detailed plans shall accompany the reserved matters submission indicating full foul and surface water drainage details, including a scheme for surface water run-off limitation and a programme of works implementation. Where soakaways are proposed, porosity tests shall be carried out in accordance with BRE 365, to demonstrate that the subsoil is suitable for soakways and calculations based on the results of these porosity tests shall be submitted to prove that adequate land area is available for the construction of the soakaways. Thereafter no part of the development shall be occupied or brought into use until the approved drainage scheme has been fully implemented and the scheme shall be retained throughout the life of the development, unless otherwise agreed in writing with the Local Planning Authority.
Reason: To ensure the proper drainage of the area.
- 5 No development works shall begin until a report, endorsed by a competent engineer experienced in ground contamination and remediation, has been submitted and agreed with the Local Planning Authority. The report shall, amongst other matters, include the following:-
1. A survey of the extent, scale and nature of contamination.
 2. An assessment of the potential risks to human health, property, adjoining land, groundwaters and surface waters, ecological systems and archaeological sites and ancient monuments.
 3. An appraisal of remedial options, and proposal of the preferred option(s).
 4. A remediation statement summarising the works to be undertaken (if required).
- The above must be conducted in accordance with DEFRA and the Environment Agency's 'Model Procedures for the Management of Land Contamination, CLR 11. The development shall thereafter be undertaken in full accordance with the submitted report. For further information, see BMBC's Supplementary Planning Guidance 28, "Developing Contaminated Land".
- Reason: To protect the environment and ensure the site is suitable for the proposed use.**
- 6 Development shall not commence until full highway engineering construction details, including highway retaining structures, have been submitted to and approved, in writing, by the Local Planning Authority. The development shall then be carried out in accordance with the approved details.
Reason: In the interest of road safety.

- 7 No development shall take place, including any works of demolition, until a Construction Method Statement has been submitted to, and approved in writing by, the Local Planning Authority. The approved Statement shall be adhered to throughout the construction period. The Statement shall provide for:
The parking of vehicles of site operatives and visitors
Means of access for construction traffic
Loading and unloading of plant and materials
Storage of plant and materials used in constructing the development
Wheel washing facilities
Measures to control the emission of dust and dirt during construction
Measures to control noise levels during construction
Reason: In the interests of highway safety, residential amenity and visual amenity.
- 8 Construction or remediation work comprising the use of plant, machinery or equipment, or deliveries of materials shall only take place between the hours of 0800 to 1800 Monday to Friday and 0900 to 1400 on Saturdays and at no time on Sundays or Bank Holidays.
Reason: In the interests of the amenities of local residents and in accordance with UDP Policy ES1, Pollution.
- 9 Prior to the commencement of development or other operations being undertaken on site in connection with the development, the following documents prepared in accordance with BS5837 (Trees in Relation to Construction 2005: Recommendations) shall be submitted to and approved in writing by the Local Planning Authority:

Tree protective fencing details
Tree protection plan (TPP)
Arboricultural method statement (AMS)

No development or other operations shall take place except in complete accordance with the approved methodologies.
Reason: To ensure the continued well being of the trees in the interests of the amenity of the locality.
- 10 No hedges or trees on the site (except those shown to be removed on the approved plan), or their branches or roots, shall be lopped, topped, felled, or severed. If any retained tree is removed, uprooted or destroyed or dies, another tree shall be planted at the same place and that tree shall be of such a size and species, and shall be planted at such time, as may be specified in writing by the Local Planning Authority.
Reason: To safeguard existing trees/hedges, in the interests of the visual amenities of the locality and in accordance with UDP Policies GS22, Woodland, Hedgerows and Trees and GS22A.
- 11 The development hereby permitted shall not begin until suitable arrangements are in place and approved in writing by the Local Planning Authority for the provision of or enhancement to off-site public open space in accordance with Unitary Development Plan Policy H6. The provision or enhancement of the off site open space shall be provided prior to completion of the development in accordance with the approved scheme.
Reason: In the interests of residential amenity to ensure adequate provision of public open space to meet local needs in accordance with Policy H6 of the Unitary Development Plan.

Reason(s) for Granting Permission

- 1 Unique There are no apparent constraints which suggest that the site cannot be developed for residential purposes. Residential development represents an efficient use of the site which is compatible with the locality. The application has successfully demonstrated that an adequate access can be achieved without compromising highway safety and there are no reasons why a detailed scheme cannot be designed in accordance with the requirements of Local and National planning policies.

Informative(s)

- 1 The proposed development lies within an area which could be subject to current coal mining or hazards resulting from past coal mining. Such hazards may currently exist, be caused as a result of the proposed development, or occur at some time in the future. These hazards included:
 - Collapse of shallow coal mine workings;
 - Collapse of, or risk of entry into, mine entries (shafts and adits);
 - Gas emissions from coal mines including methane and carbon dioxide;
 - Spontaneous combustion or ignition of coal which may lead to underground heatings and production of carbon monoxide;
 - Transmission of gases into adjacent properties from underground sources through ground fractures;
 - Coal mining subsidence
 - Water emissions from coal mine workings.

Applicants must take account of these hazards which could affect stability, health & safety, or cause adverse environmental impacts during the carrying out their proposals and must seek specialist advice where required. Additional hazards or stability issues may arise from development on or adjacent to restored opencast sites or quarries and former colliery spoil tips.

Failure to obtain Coal Authority permission for such activities is trespass, with the potential for court action. In the interests of public safety the Coal Authority is concerned that risks specific to the nature of coal and coal mine workings are identified and mitigated.

The above advice applies to the site of your proposal and the surrounding vicinity. You must obtain property specific summary information on any past, current and proposed surface and underground coal mining activity and other ground stability information in order to make an assessment of the risks. This can be obtained from The Coal Authority's Property Search Service on 0845 762 6848 or at www.groundstability.com

- 2 The decision to grant planning permission has been taken having regard to the policies and proposals in the Barnsley Unitary Development Plan set out below and to all relevant material considerations, including Supplementary Planning Guidance:

H8A 'Existing Residential Areas' promotes residential development within residential areas'.
GS34/35 'Urban Greenspace'
T2 'Development and the Highway Network'
T2a 'Development and the Highway Network'

National Planning Policy
PPS1 'Delivering Sustainable development'
PPS3 'Housing'
PPG13 'Transport'
PPG17 'Planning for Open Space, Sport and Recreation'.

Supplementary Planning Guidance
SPG2 'Design and Layout of New Housing'

This informative is only intended as a summary of the reason for granting planning permission. For further details on the decision please refer to the application file, by contacting 01226 772593.

NOTES:-

Appeals to the Secretary of State

If you are aggrieved by the decision of the Council to grant permission for the proposed development subject to conditions then you can appeal to the Secretary of State for the Environment, Transport and Regions under Section 78 of the Town and Country Planning Act. If you want to appeal, then you must do so within six months of the date of this notice, using a form which you can get from The Planning Inspectorate, Room 3/24 Hawk Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the provisions of the development order and to any directions giving under the order. In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based its decision on a direction given by him.

Purchase Notices

If either the Local Planning Authority or the Secretary of State for the Environment, Transport and Regions refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of part VI of the Town and Country Planning Act 1990.

Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference to the application to him. These circumstances are set out in Sections 114 and related provisions of the Town and Country Planning Act 1990.
