

Design and Access Statement

BARNSELY NHS FOUNDATION TRUST, MINOR INJURIES
UNIT, GAWBER ROAD, BARNSELY S75 2EP

ASSESSING THE CONTEXT OF THE SITE

The site is located on Gawber Road and forms part of the Emergency Department of the Hospital. It is positioned within a large car park.

INVOLVEMENT

Throughout the design process the architects have been directed by the Hospital Representatives.

EVALUATION

The existing Emergency Department is in the process of being extended and a decision has been made to extend this facility to enable it to function more efficiently. It was decided to remove the car parking bays at the front of the building and extend this unit into this area in the recess formed between the 2no entrance areas. One entrance is used for Emergencies and is for ambulance use only. The second entrance is used for a general entrance to the Emergency/Minor Injuries Department. It was decided to infill this space to extend the Department.

THE DESIGN

Applicable Policies: -

- D1 - Design and the Built Environment
- A1 - Accessibility
- CP1 - Community

USE

An Emergency Department/Minor Injuries Unit is in the process of being formed within the hospital due to complete in May 2011. This extension will provide an improved Emergency Department located off the Emergency Entrance area. The proposed extension is to provide an increase in area of this unit to provide additional cubicles and facilities.

AMOUNT

The extension is to provide an additional floor area of 57.34m².

Design and Access Statement

BARNSELY NHS FOUNDATION TRUST, MINOR INJURIES
UNIT, GAWBER ROAD, BARNSELY S75 2EP

LAYOUT

The existing facilities will be remodelled and along with the increased area will form an new enlarged waiting area, further cubicles and an Eye Assessment area along with increase storage.

All areas allow for full accessibility in compliance with Part M.

SCALE

The new extension is to be single storey with a flat roof and is in keeping with the design of the existing building

The proposed location for the extension is shown in the photograph to the left.

LANDSCAPING

There is no landscaping included within the works for this extension. The existing Accessible parking bays are being removed. The footpath will be extended along the front of the extension. There will be additional bays formed within the new car park at present being formed to the front of the Women's Services Block.

APPEARANCE

The extension is to be in keeping with the existing building. The windows will be aluminium and there will be cladding colour grey to match the cladding to the first floor between the windows.

ACCESS

All aspects of the scheme have been designed in accordance with the requirements of Part M of the Building Regulations to provide adequate manoeuvring space. There are existing Accessible Toilets within this area.

Once within the building there will be no impediment to those less able. Access will be available to all, and access throughout the building will be without prejudice.
