For the Attention of Rachael Pell
Development Control

Dear Madam

APPLICATION NO 2010/1063
DESCRIPTION Erection of first floor extension above garage including conversion of existing Garage to playroom and erection of single storey attached garage
LOCATION No 2 Lee Lane Royston Barnsley S71-4RT

Further to our previous telephone conversations regarding the above proposals and my client Mr Shaw's recent telephone conversation with your colleague Mr Joe Jenkinson , I have now amended the drawing in which the attached garage has now been omitted in order to address the over development implications, the existing garage conversion has also been omitted, but further windows have now been added including a feature chimney on side elevation B in order to break up the long elevational expanse of brickwork and aesthetically improve its overall street scene appearance.

I trust that these amendments will now be more favourable in terms of gaining your full support in approving this application under the Town and Country Planning Act.

Yours Faithfully
C. Minett
