Consultee	Edward Jowett (Tree Officer)

Consultation Assessment and Justification

The arboricultural impact assessment provided clarifies the queries I had and I can confirm there is no objection to the scheme or the tree removals proposed. The detail in the AIA and the simplicity of the protection measures required means it is sufficient for this document to be conditioned to be complied with rather than requiring an arboricultural method statement.

The landscaping plan provided also demonstrates that significant levels of replacement planting will be provided to mitigate for those trees which are to be removed and as such I have no issue with what is proposed.

I would therefore ask that the AIA and Landscaping Scheme be conditioned as documents to be complied with.
