

15 March 2021

Dear Mr Lumb,

NSI Ref: **BY/00K – MOUNT VERNON HOSPITAL, MOUNT VERNON ROAD, BARNSELY**

Thank you for registering your development with Openreach. We are delighted to inform you that your development will **receive our Fibre to the Premise (FTTP) product** free of charge.

This will provide ultrafast broadband speeds to each home and will deliver a level of broadband future proofing as the demand for speed increases.

Your customers could, depending on their choice of communications provider, benefit from speeds of up to 1Gbps enabling them to stream HDTV, play computer games and write emails simultaneously providing the best communications experience.

### **What you need you to do now**

In order to provide ultrafast broadband infrastructure to your customers and to ensure that we get the design right first time, we need you to:

- Confirm that the details you provided at the Registration stage are correct. If not, please contact us immediately so that we can make any necessary changes.
- You can still opt to self-install the connectorised cable, Optical Network Termination (ONT) within each of your properties. Please note that if you do choose to self-install then you will eligible for an additional rebate payment (£20) per plot.

For important information for fibre installation please see our developer handbook <https://www.openreach.com/fibre-broadband/fibre-for-developers/guides-and-handbooks>

Yours sincerely,

Infrastructure solutions customer service team
