

PLANNING REFERENCE- 2023/0662

LOCATION- THE GRANARY, HAY GREEN LANE, BIRDWELL, BARNSELY, S70 5XE

HERITAGE STATEMENT IN SUPPORT OF APPLICATION 2023/0662

The Granary is a mid-18th century barn on Hay Green Way, now a house, which is directly adjacent to the outbuilding/garage which this application relates to.

The Granary at Hay Green Lane (NHL1315079) is a mid-18th century agricultural building, now converted into a dwelling. It is constructed of thinly coursed sandstone with large quoins and a stone slate roof. Originally of a single-storey, and 5 bays, it has a central cart entry facing the road (north) framed by quoined jambs and wood lintel. There are two rows of slit vents and a square hatch to bay 1. To the rear there is a narrower quoined central opening. The end gables have slit vents and hatches.

As this application proposes no works to the list barn (the Granary) and that the works proposed are simply to outbuilding it is seen that the proposal will bear no direct impact on The Granary.

The design proposed is complimentary of the building and its surroundings.
