Details of the pre-application advice received

Advice was verbal and followed up via email correspondent.

4.7.219

This email is just to recap our discussion and to make sure I interpreted your advice before we forge ahead with plans and permissions.

All subject to further approval but as it stands...

1. A new window into the living room the same size as the the current existing window that we intend to open up to the full height of the opening it once was. Subject to detailed plans that include appropriate head and cills this seems proportionate to allow more light ingress and is not substantially harmful to the heritage.
2. A single window same size as the bedroom windows to the upstairs landing on the roadside. However we are aware that this is unlikely to be approved. (It would however be easier than putting the other window that was pre-approved in as that entails re jiggging the bathroom and moving the heating manifolds from the wardrobe space that was created when they cut the landing short) As I noted on 02.07.19 I think it would be preferable to provide this improved light ingress to the landing area via a roof light or light tunnel as generally speaking new openings should be restrained as much as possible and particularly where they front onto the public realm.
3. Double garage with living space above, preferably out of stone to match the property and the other double garage that the farm house has. Or a oak structured garage as a second best option. The matter of the setting of the listed building is important, but precedent (already approved similar developments in the vicinity) is also a material consideration. The crate is currently not ideal and so an argument might be made for an improvement to the setting by way of design and high quality materials that are sympathetic.
4. Log burner with sympathetic flue terminating on the back side of the property away from the roadside. Assuming the flue was not too large that and black this seems fine.
5. Aluminium framed windows thin profiled with more glass to replace the old and in place rotted wooden windows. Agreed, the windows themselves are of little historic merit and so an Alu framed item of very simple design would likely work.
6. Still undecided but potential to reinstate the window that was approved but never fitted to the garden side of the property. Slightly worried that it would make that side of the building a little busy with the other more necessary alterations... ideally landing window on roadside would alleviate this need. See point 2. I agree and understand but note my comments about principal elevations and views from the public realm.
7. Repointing in lime to safe guard the weathering and breathability of the natural stone. Currently Portland cement mortar! Yes, ideally pure lime / aggregate in ratio 1:3 (where 1 part NHL 3.5 is added to 3 parts well graded aggregate or river sand). Brushed or stippled back before curing to compact and form a gently recessed joint.

15. Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

Yes No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

16. Ownership Certificates and Agricultural Land Declaration

Certificate Of Ownership - Certificate A Certificate under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 & Regulation 6 of the Planning (Listed Buildings and Conservation Areas) Regulations 1990

I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**

* 'owner' is a person with a freehold interest or leasehold interest with at least 7 years left to run. ** 'agricultural holding' has the meaning given by reference to the definition of 'agricultural tenant' in section 65(8) of the Act.

NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
