

NOTES
 The contractor is to check and verify all building and site dimensions, levels and sewer invert levels at connection points before tendering and work commences.
 This drawing must be read with and checked against any structural or other specialist drawings provided.
 The contractor is to comply in all respects with the current building regulations whether specifically stated on these drawings or not. Internal dimensions exclude plaster thickness.
 Do not scale off this drawing.

The W.C. area is vented via an extractor which extracts at a rate of 6 litres per second and is connected to the light switch, with 15 mins overrun time.
