5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO? ☑ Yes ☐ No

Are you wishing to carry out works to tree(s) in a conservation area? ☐ Yes ☐ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number below.

TPO 10 (1974) Bence Lane, Kexborough
Land Rear Kexborough House

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

ASH (T8) - fell tree because:
(1) Overhang, height & lean giving danger of fall onto people and property at No 1 Beaumont Road.
(2) Ash dieback - problem is obvious without report from tree expert.

7. Identification Of Tree(s) And Description Of Works continued ...

(3) Weak thin foliage, dropping black/brown foliage in Summer.
(4) Dropping brittle weak twigs.
(5) Fungal growth
(6) Low amenity value because of 'Y' shaped main members

Replace T8 and replacement for T7 planted between T7 and T8 with one tree. ~~Species~~ Species to be agreed with BMBC, but having a maximum likely height of 9 metres. T7 replacements in the past have died because there is insufficient water.

ASH (T4) Partial Reduction of crown to increase stability and safety for property at 1 Beaumont Road. Also because of proximity to tree 8 it is likely to suffer Ash Dieback and the reduction of the crown could help its long term health. Proposal 50% of crown reduced where overhanging 1 Beaumont Road, elsewhere 20% reduction.

Both trees are in a location sensitive to winds from the south east through south to north west. Rock is not far below ground level, there is little water available because of large trees

8. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

For all trees
A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.
