## **LANDFILL OPERATIONS, MARTIN NEST FARM**

Please find enclosed the revised plan with the spillway / highway level relationship indicated.

We attended site this morning, and after 24 hours of heavy rainfall the only flooding on the highway was caused by rain running down the road itself. The spillway was functioning appropriately, despite the damage mentioned in the local authority report, with the water running some 450mm below the road level down into the pipes under the road.

Yours sincerely

Paul Briggs  
Northern Design Partnership
