

purpose of access to the farm at Alderman's Head. It has been used by various persons both for pedestrian and vehicular access.

8. No one has taken any steps to object to this right of way. No one has ever closed the right of way off or prohibited its use. I am aware that part of the right of way is a bridal path and I can say that from my knowledge of the land over many years that the access way has been used by all parties without any difficulties or complaints.
9. The land on the south side of Hartcliffe Hill Road has not been accessed from any other part of the adjoining land. The right of way I have described has been the sole access and it continues to be so.

And I make this declaration conscientiously believing the same to be true and by virtue of the provisions of the Statutory Declarations Act 1835.

Dated this 11 day of February 2010

*M. Hellowell*
