*Drawing withdrawn

Following submission of the original set of drawings in April 2021, it was agreed the local highways / planning authority and the applicant that a revised and final set of these drawings should be submitted at a time when the section 278 agreement is completed with 'as built' drawings, and thereby ensure a consistent set of drawings on both the section 278 file and the planning discharge of condition file.

In the intervening period, construction of the roundabout has taken place and been completed. The drawings hereby submitted reflect the roundabout 'as built' and are currently subject to the Council's final section 278 approval.

No changes to the geometry, physical form or construction of the roundabout remain to take place. Any final outstanding works required prior to adoption of the roundabout relate only to minor matters (such as repainting white lines) that will not affect the content of the drawings.

It is therefore requested that condition 10 be discharged at this stage with reference to the enclosed set of drawings.

Should you have any queries or wish to discuss further then please contact me by email or phone on the number above.

Yours sincerely

HRobertshaw
