

DESIGN & ACCESS STATEMENT

The Stafford Arms @ Stainborough

Sign A

1 No. Aluminium framed double sided pictorial is fixed within a mild steel gibbet on a mild steel post and located within the buildings boundary. The sign advertises at distance the function of the building to both foot and vehicular traffic, also creating a better flow of traffic for persons wishing to use the outlet.

Sign B

1 No. Aluminium fascia sign has been located on the buildings natural area. The sign displays hand finished face decorated lettering. The fascia does not encroach on any architectural features such as lintels or window mullions. The key function of the signage is to inform the public at distance the name and nature of the business, also highlighting the main access point to the outlet creating a better flow of foot traffic in and around the area for persons wishing to use the facilities.

Sign C

2 No. Aluminium amenity sign are located on the buildings natural area, given the position of the signage they do not encroach on any architectural features such as window mullions or key features such as lintels or fall pipes. They're located by the access points to the building this will help users of the outlet identify the point of access. The key function of the signage is to inform the public of the buildings amenities on offer, also creating a better flow of foot traffic in and around the area for persons wishing to use the facilities.

Sign D

1 No. Aluminium chalkboard sign are located on the buildings natural area, given the positions of the signage they do not encroach on any architectural features such as window mullions or a key feature such a lintels or fall pipes. They are located by the access points to the building this will help users of the outlet identify the points of access. The key function of the signage is to inform the public of the amenities on offer, also creating a better flow of foot traffic in and around the area for persons wishing to use the facilities.

Sign E

1 No. lantern has been located to highlight the access to passing foot and vehicular traffic, creating a better foot flow to patrons wishing to use the outlet on an evening.

Contemporary design

The signage has been designed using contemporary materials and processes. The use of colours and letter styles has been chosen to be contemporary but not overpowering against the buildings aesthetics.
