

NOISE MANAGEMENT PLAN FOR AJS 3 LTD

INSIDE MUSIC

The main hours of the bar weekly will be Friday 14.00 to 24.00. Saturday 12.00 to 01.00. Sunday 14.00 to 23.00. The music played will be recorded playlists that will be operated from behind the bar. All doors and windows will be closed during opening hours. Sound boards have been installed on the one party wall and speakers will be placed away from openings. A sound level reader will be downloaded onto the management mobile and will be used on a regular basis to ensure music is kept within levels and this will be recorded in a log book. The music levels will be reduced as it gets nearer to closing as we do not expect or wish to attract late customers

On occasion we may have a DJ or Live Singer but they will finish at 23.00 or earlier and we will return to music operated from the bar. This may be on bank holiday weekends or special occasions or private functions

DELIVERIES AND COLLECTIONS AND RECYCLING

Deliveries Collections and Recycling will only take place between the hours of 8.00 to 18.00 on Monday to Saturday. There will be no Deliveries Collections or Recycling on Sundays

Refuse and Recycling bins from inside the Bar will not be emptied at close of business but the following morning after 8.00

SMOKING SHELTERS

Customers will be permitted to use the outside front area of the Bar to smoke. This will give door security and management vision on the numbers gathered and allow constant monitoring. To prevent unsatisfactory numbers gathering outside management and door security will make requests for customers to return inside or move to another establishment. Furthermore no shelter will be provided to help discourage unnecessary use of the front area

CAR PARKS

Although we have a rear car park this will not be for the use of customers

EQUIPMENT

There will be no food therefore no Kitchen equipment. Although there will be chiller in the cellar this will be in an area that is closed off at all times. So no noise from there

COMPLAINTS

We will advise all near neighbours of any upcoming events at least 2 weeks before the event where customer numbers are likely to exceed typical numbers clarification to be provided on a leaflet as the main point of contact name/numbers and all complaints to be logged to enable review by operator or BMBC as required. We will strive to have a good relationship with our near neighbours at all times

NOISE LIMITS

Signage will be placed near exit doors requesting patrons to respect the local residents by keeping noise to a minimum this will also be overseen by door security as they leave the premises. Management will oversee noise management plan and a noise log book will be available for inspection if required

MANAGEMENT OF THE BAR

The management and running of the Bar will be the 3 directors who will be on site and working the bar at all times. All the directors have previously worked in hospitality with two of the directors having worked in Soul Lounge town centre bar up to lockdown for 12 and 6 years. The directors are committed to be aware of the premises licence and the requirements to reduce external impact from noise

We understand and commit to ensuring this noise management plan is implemented and maintained at all times for the duration of operation of our premises. We understand that it forms a key part of our Licence to operate and that departure from it could lead to curtailment or loss of said operating Licence
