

Barnsley College Old Mill Lane New Build

Operational Statement – Urban Park

The College is keen to actively encourage the general public to use the park and its facilities during normal operational hours 08:30 to 21:00 term time, subject to weather conditions during winter evenings (opening and closing times may be modified during holiday periods to accommodate staff shift patterns). College Managers are eager to expand provision to include more weekend classes giving further access to the general public.

Security would be the responsibility of the College, the intention being that College staff would secure the area overnight at the end of the College day, opening again the following morning prior to the lecturing staff and students arriving.

Maintenance of the park, for example, cleaning, gardening, the upkeep of hard landscaping, pest control etc, would be undertaken by either College staff or by specialist contractors appointed by the College. The Department of Facilities Management would organise and monitor all maintenance schedules and contracts on behalf of the Principal and College Governors.
