Method Statement for Design /Access App 2009/0210/Invalid

Dear Angela,

The Access to the proposed stables is via the Caulk lane no through lane, except for farming and livestock.

The access is gained to my paddock from Caulk lane through a 5mtr entrance along a wood and post fence.

The width of caulk lane at this point is also 5 metres, these measurements lend themselves to a spare in and out of the paddock with a clear 360 degrees view.

Hard standing for 1 large car or small van for parking.

Regards – Gary Benson
