

General
Drawings prepared for local authority. Any electrical, heating installation, joinery items, finishes, and fittings to be instructed by the client. The clients are to satisfy themselves that any buried private or public services will not affect the proposal. These drawings have been prepared on the understanding that work will not commence on site prior to the granting of planning permission and building reg approval. All drawings are copyrights and may not be used in conjunction with other projects

CDM REG 2015
These drawings have been prepared on the understanding that work will not commence on site prior to the granting of planning permission and building Reg approval. At this point the designers work is complete, hence the designer of this drawing will not be acting as the principle designer in terms of health and safety. Under the new regulations, both the client and the building contractor will have health and safety responsibilities and will need to prepare a construction phase plan for the scheme, the construction phase plan for the scheme should include risk assessment and method statements for elements of the works such as excavations, buried services, risk of electrocution, working at height, lifting and handling, etc. should you require guidance, please see HSE website.

FRONT ELEVATION
1 : 50

The bat and bird boxes have been installed on the rear elevation of the property to position them in close proximity to the adjacent mature tree canopy. This location offers optimal natural shelter, protection from prevailing weather, and immediate, covered flight pathways into nearby foliage for both foraging bats and nesting birds.

SIDE ELEVATION 02
1 : 50

SIDE ELEVATION 01
1 : 50

REAR ELEVATION
1 : 50

WildYard Cedar Bat Box

FSC®-certified, untreated Western Red Cedar shell for chemical-free, long-lasting weather protection. Features a textured ladder entry and draft-free internal crevice (18–20mm) tailored for Pipistrelle bats. Self-cleaning bottom-entry design—built to satisfy local planning conditions and ecology requirements.

Versatile Installation

Perfect Size

Bird House box

With UK wild bird populations facing ongoing declines, giving small garden birds a safe place to breed is more important than ever. Measuring 15 x 15 x 22 cm, the Punama Wooden Bird House provides a cozy, protective habitat for small wild species like robins, sparrows, and finches. Built for outdoor hanging on branches, fences, or walls, it features a detachable perch and a closable access door to make end-of-season cleaning simple and hassle-free.
