SWITCHES & SOCKET OUTLETS TO BE PROVIDED BETWEEN 450mm & 1200mm FROM FLOOR LEVEL

ACCESSIBLE SWITCHES AND SOCKET OUTLETS IN THE DWELLING

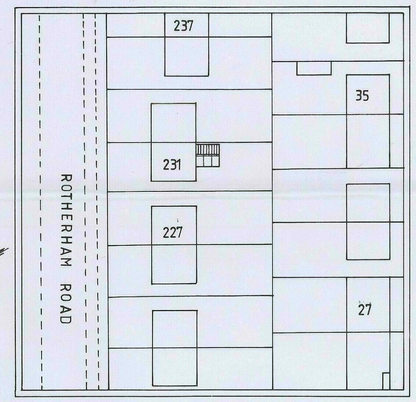

OBJECTIVE

The aim is to assist those people whose reach is limited to use the dwelling more easily by locating wall-mounted switches and socket outlets at suitable heights.

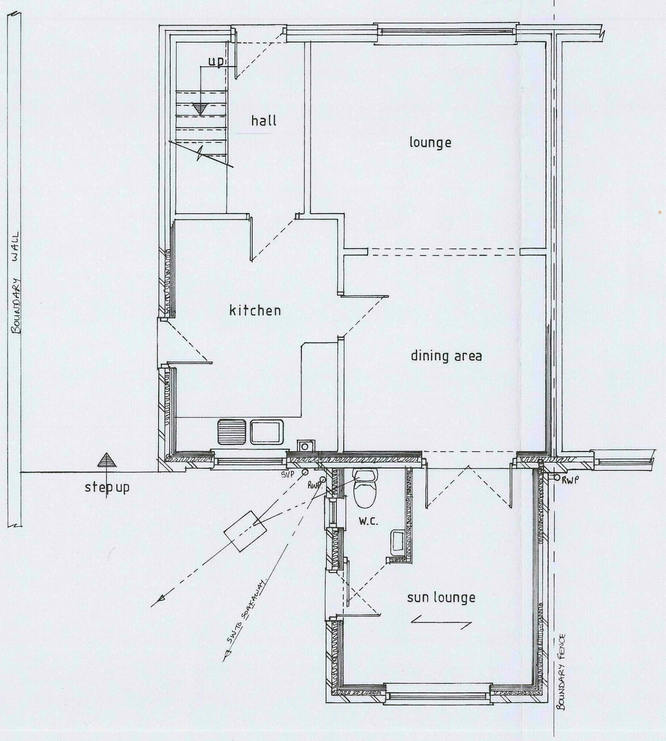

A way of satisfying the requirements would be to provide switches and socket outlets for lighting and other equipment in habitable rooms at appropriate heights between 450mm and 1200mm from finished floor levels - see diagram.
