Electricity Act 1989: Overhead Lines (Exemption)(England and Wales) Regulations 2009

It is proposed to undertake the following work that is considered to be exempted from the Electricity Act 1989 by falling within the Overhead Lines (Exemption)(England and Wales) Regulations 2009:

Grimethorpe - South Kirkby 66kV Wood Pole Overhead Line : Poles 2 - 24 are proposed to be rebuilt slightly off line using a modern equivalent wood pole design.

Particulars of proposed development to be completed by Applicant:

As part of the on-going improvement works to our overhead electrical network in the Grimethorpe & South Kirkby areas it is proposed to rebuild our existing 66kV mast overhead line (OHL) (totalling approximately 3.4km in length). I have attached copies of drawing numbers C1031930 sheets 1 & 2 of 4 showing the route of the existing OHL, which consists of both steel masts and wooden poles, and the proposed route of the replacement wooden pole OHL. These works are deemed as minor by the The Department of Energy and Climate Change and therefore fall within the aforementioned exemption regulations.

The Council/Authority is requested to indicate that it has no objection to the work being carried out by returning two copies of this Form with the Certificate completed and signed.
