Details of the pre-application advice received

No actual advice was given.
A blanket statement about usage of the property under NPPF TC1 as Podiatry is classed as leisure and is therefore a town centre usage. The property has been classed as hairdressing (also TC1 Leisure) since 1984 establishing a significant precedent in its current location. The property is 500 yards from Royston town centre.

Concerns were raised that future usage as a D1 could impact traffic if we were to leave and another owner establish something more significant. This is unlikely due to the size of the building being anatural constraint and the fact there is already a new doctor surgery 100yds towards Royston. It was acknowledged that our usage would not impact traffic upon the officer's consultation with Highways.

Class D1 states a over inflated parking requirement compared to our actual use which will be equivalent or less than previous usage as a diverse beauty salon.

Its proximity to the doctor's surgery will both complement and enhance health care in the local community. We have even had local residents telling us that it is a service needed in the area.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
