Please find attached my rough sketches showing the location of my proposed decking I would like to build a 3.6 meter by 4.2 meter elevated decking area at the rear of my property.

The height of the decking will be approx 1 meter high as the rear of my garden slopes away from the rear of my bungalow, the plan is to walk out of my patio doors onto the raised decking

Should you require any further information please do not hesitate to contact me

Thankyou.
