

Northern Powergrid Sub Station

Land Opposite 10A Woodview Chase, Staincross, S75 6PS

Project Overview

The proposal is for a compact Northern Powergrid substation positioned within the landscaped green space on land opposite 10A Woodview Chase, Staincross, S75 6PS. The substation will support the local electricity network while being sensitively integrated into the residential setting through planting and careful siting.

Key Design Points

-  **Landscaped screening**
Integrated with planting and green space
-  **Residential context**
Sited to respect the surrounding homes
-  **Simple robust form**
Functional and durable design
-  **Safe access**
Designed for operational and maintenance access
-  **Reduced visual impact**
Careful siting and landscaping minimise visual impact
