

Subject: Windfarm No Objection: Shafton 439954 408340 - Ref: 111062

Date: Wednesday, 27 March 2013 13:24

From: Robin Haddon <robin.haddon@ericsson.com>

To: Debbie Scott-Webb <debs.sw@engena.co.uk>

Cc: Tech Services-Tx <tech.services-tx@ericsson.com>

Dear Debbie

I can confirm MBNL have no microwave link within 200m and no mast within 500m of your proposed wind turbine location and therefore have no objections to your proposal.

Please note, if any of the details of the application, particularly the location or size of the turbines should change, it will be necessary to re-evaluate the proposal. Any changes made to the proposed site location of any turbine, will require a further desktop study to re-confirm the minimum clearance criteria set within the MBNL guidelines.

It should be noted that this clearance pertains only to the date of its issue. As the use of the spectrum is dynamic, the use of the band is changing on an on-going basis and consequently, you are advised to seek re-coordination prior to submitting a planning application, as this will negate the possibility of an objection being raised at that time as a consequence of any links assigned between your enquiry and the finalisation of your project.

Any mitigation works required to our links or sites as a result of this development will be at the developer cost.

Regards

Tech Services
