

PLANNING CONSULTATION RESPONSE

Application No	2025/1092
Proposal	Demolition of TPT bridge over Grange Lane at Stairfoot roundabout
Address	Grange Lane, Stairfoot
Date of Consultation Reply	21 August 2026
Consultee	PROW

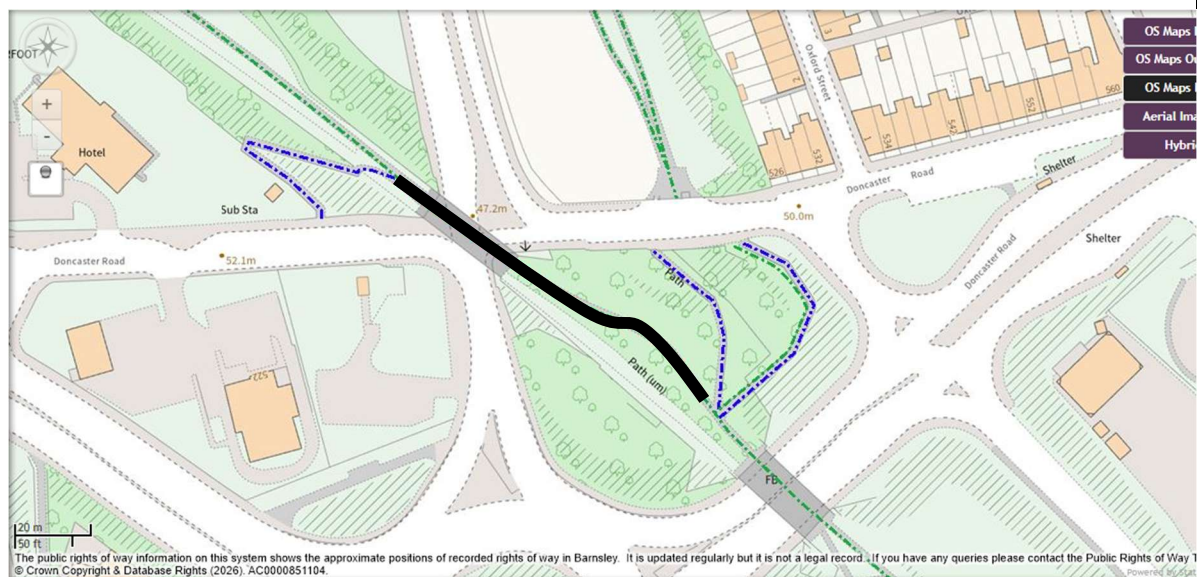

Consultation Assessment and Justification

The TPT bridge over Grange Road connects the north South TPT route with the Spur into the Town Centre. It is well used by leisure users, commuters and parents taking pupils to the primary schools on Doncaster Road.

It is therefore VITAL that the demolition takes place as late as possible and the installation of the replacement bridge as soon as possible.

We agree that the replacement is necessary and understand that the exact details are not available yet until the contractors have been pointed and details discussed.

We agree with the landscape reinstatement which has been drawn up by Active travel with ourselves.

NO OBJECTION*

*Delete as applicable

Consultation Suggested Conditions:

- Access **MUST** be maintained for all users on the north/south section of the Trail to the east of the closure including crossing at grade over the old Doncaster Road
 - The footpath ramp down to Doncaster Road by the substation should be made available to all bridleyway users along with an AT grade crossing of Grange Lane throughout the works to enable users to rejoin the open section of the TPT
 - The contractor will need to apply and pay for a temporary closure of this section of the TPT via the PROW team. We need at least 6 weeks notice prior to the start date.
 - This is a bridleyway so the bridge design and installation **MUST** comply with noise reduction, surfacing for non slip and solid parapet to 1m standards set out by British Horse Society

BARNSLEY

Metropolitan Borough Council

and Traffic regulations. PROW team to be fully involved in decision making and consultation on final design along with BHS regional rep Mark Corrigan
