

GRANT OF PLANNING PERMISSION

TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO. 2025/0920

To White Agus Ltd
Office One
Drill Hall
11 Eastgate
Barnsley
S70 2EU

DESCRIPTION Demolition of existing side single storey extension and garage; erection of two storey side; rear single storey extensions; front entrance porch and detached double garage with alterations to driveway and parking arrangements.

LOCATION St Johns Close, 379 Carlton Road, Carlton, Barnsley, S71 3JB

Permission is **granted** for the proposals which were the subject of the Application and Plans registered by the Council on 07/11/2025 and described above.

The approval is subject on compliance with the following conditions:

1 The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.
Reason: In order to comply with the provision of Section 91 of the Town and Country Planning Act 1990.

2 The development hereby approved shall be carried out strictly in accordance with the amended plans:

25-035-02 Rev. F Plans and Elevations as Proposed received 15th April 2026.

25-035-03 Rev. A Proposed Garage.

Arboricultural Report and Impact Assessment ref. AWA6984 dated October 2025 produced by AWA Tree Consultants.

and specifications as approved unless required by any other conditions in this permission.

Reason: In the interests of the visual amenities of the locality and in accordance with Local Plan Policy HE1: The Historic Environment and Local Plan Policy D1: High Quality Design and Place Making.

- 3 The external materials shall match those used in the existing building (St Johns Close, 379 Carlton Road, Carlton, Barnsley, S71 3JB), those specified by the approved documents listed above, and those specified by the email received 15th April 2026.
Reason: In the interests of the visual amenities of the locality and in accordance with Local Plan Policy HE1: The Historic Environment and Local Plan Policy D1: High Quality Design and Place Making.
- 4 No development or other operations being undertaken on site shall take place until the following documents in accordance with British Standard 5837:2012 Trees in relation to design, demolition and construction - Recommendations have been submitted to and approved in writing by the Local Planning Authority:
- Tree protective barrier details
Tree protection plan
Arboricultural method statement
- No development or other operations shall take place except in complete accordance with the approved methodologies.
Reason: To ensure the continued wellbeing of the trees in the interests of the amenity of the locality and in accordance with Local Plan Policy BIO1: Biodiversity and Geodiversity.
- 5 Prior to the development hereby approved being brought into use, a replacement planting scheme to compensate for the loss of the trees identified in the Arboricultural Report and Impact Assessment ref. AWA6984 dated October 2025 produced by AWA Tree Consultants shall be submitted to and approved in writing by the Local Planning Authority. The replacement planting scheme shall include full details of the species, planting positions, planted heights and planting specification. The approved replacement planting shall be undertaken no later than the first planting season following the development hereby approved being brought into use.
Reason: In the interests of the visual amenities of the locality and in accordance with Local Plan Policy BIO1: Biodiversity and Geodiversity.
- 6 Before the development is brought into use, that part of the site to be used by vehicles shall be surfaced in a bound, solid material for the first 5 metres and adequate measures shall be so designed into the access to avoid the discharge of surface water from the site on to the highway.
Reason: To ensure adequate provision for the disposal of surface water and to prevent mud/debris from being deposited on the public highway and to prevent the migration of loose material on to the public highway to the detriment of road safety and in accordance with Local Plan Policy T4: New Development and Transport Safety.
- 7 Notwithstanding the provisions of the Town and Country Planning (General Permitted Development (England) Order 2015 (or any Order revoking and/or re-enacting that Order), the garage hereby permitted shall be retained as such and shall not be used for any purpose other than the garaging of private motor vehicles associated with residential occupation of the application dwellinghouse (St Johns Close, 379 Carlton Road, Carlton, Barnsley, S71 3JB) and ancillary domestic storage. It shall not be used for any trade or business purposes, nor used as a separate residential use or annexe and shall not be severed at a later date to create a separate planning unit.
Reason: To ensure that the use of the existing access is not intensified to the detriment of road safety in accordance with Local Plan Policy T4: New Development and Transport Safety, and to ensure that the residential use of the site is not intensified, contrary to sustainable development and Local Plan Policy T3: New Development and Sustainable Travel.

Informative(s)

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 (as amended), the Local Planning Authority have, where possible, made a pre-application advice service available, and otherwise actively engaged with the applicant in dealing with the application in a positive and proactive manner.

- 1 The granting of planning permission does not in any way infer that consent of the landowner is given. Therefore, the consent of all relevant landowners is required before proceeding with any development, including that of the Council as landowner.

If it should transpire that the applicant does not own any of the land included in this consent, then it is the responsibility of the applicant to seek all necessary consents and approvals of the landowner.

- 2 It is recommended that measures are taken to prevent a nuisance/ or effect the quality of life of local residents. Please note that the Council's Pollution Control Team have a legal duty to investigate any complaints about noise, smoke or dust. No waste should be burnt. If a statutory nuisance is found to exist, they must serve an Abatement Notice under the Environmental Protection Act 1990. Failure to comply with the requirements of an Abatement Notice may result in a fine of up to £20,000 upon conviction in Magistrates' Court. It is therefore, recommended that you give serious consideration to the steps that may be required to prevent a noise, dust or smoke nuisance from being created.
- 3 The proposed development lies within an area that has been defined by the Mining Remediation Authority as containing coal mining features at surface or shallow depth. These features may include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and former surface mining sites. Although such features are seldom readily visible, they can often be present and problems can occur, particularly as a result of new development taking place.

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant land stability and public safety risks. As a general precautionary principle, the Mining Remediation Authority considers that the building over or within the influencing distance of a mine entry should be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure a suitable engineering design which takes account of all relevant safety and environmental risk factors, including mine gas and mine-water. Your attention is drawn to the Mining Remediation Authority Policy in relation to new development and mine entries available at: Building on or within the influencing distance of mine entries - GOV.UK

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Mining Remediation Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Application forms for Mining Remediation Authority permission and further guidance can be obtained from The Mining Remediation Authority's website at: www.gov.uk/get-a-permit-to-deal-with-a-coal-mine-on-your-property What is a permit and how to get one? - GOV.UK (www.gov.uk)

In areas where shallow coal seams are present caution should be taken when carrying out any on site burning or heat focused activities.

If any future development has the potential to encounter coal seams which require excavating, for example excavation of building foundations, service trenches, development platforms, earthworks, non-coal mineral operations, an Incidental Coal Agreement will be required. Further information regarding Incidental Coal Agreements can be found here - <https://www.gov.uk/government/publications/incidental-coal-agreement/guidance-notes-for-applicants-for-incidental-coal-agreements>

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Mining Remediation Authority on 0800 288 4242. Further information is available on the Mining Remediation Authority website at: Mining Remediation Authority - GOV.UK

- 4 The applicant/contractor should note that to deposit mud/debris on the public highway, or anything which may cause a nuisance or possible danger to road users, is an offence under provisions of the Highways Act 1980.

Please be aware that the Council monitors construction sites and open land within the vicinity of such sites in an attempt to prevent fly tipping (i.e. unauthorised deposit of waste on land), which is illegal under the Environmental Protection Act 1990. The penalties for fly-tipping can include:

- a fine of up to £50,000 and
- up to six months imprisonment on conviction.

Therefore, if necessary, please ensure that all demolition waste and waste associated with the construction of any development is disposed of via approved methods and that documents are retained to prove this.

Signed:

Dated: 27 April 2026

Garry Hildersley

Head of Planning, Policy & Building Control
Growth & Sustainability Directorate

The grant of this consent does not constitute or imply permission, approval or consent by the Local Authority for any other purpose.

NOTES:-

Appeals to the Secretary of State

If you are aggrieved by the decision of the Council to grant permission for the proposed development subject to conditions then you can appeal to the Secretary of State for the Environment, Transport and Regions under Section 78 of the Town and Country Planning Act. If you want to appeal, then you must do so within twelve weeks of the date of this notice, using a form which you can get from The Planning Inspectorate, Room 3/24 Hawk Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the provisions of the development order and to any directions given under the order. In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based its decision on a direction given by him.

Purchase Notices

If either the Local Planning Authority or the Secretary of State for the Environment, Transport and Regions refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of part VI of the Town and Country Planning Act 1990.

Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference to the application to him. These circumstances are set out in Sections 114 and related provisions of the Town and Country Planning Act 1990.
