SUPPLEMENT TO THE DESIGN AND ACCESS STATEMENT

1.0 ACCESS

1.1 The proposed wind turbine is to be located in the Southwest corner of the disused arable land belonging to Middlecliffe Farm, as shown on the attached plan.

1.2 The disused arable land and the farm are served by a driveway that connects Middlecliffe Farm to Lee Lane. Lee Lane is also known as the B6106 as it is a classified road.

1.3 During installation, vehicles will park and equipment will be unloaded to the North of the Farmhouse. Access to where the turbine will be sited, for installation and maintenance purposes, will then be gained via foot along the route shown on the attached plan.

1.4 Due to the size and weight of the turbine and installation equipment, temporary surfacing is not required and access on foot is considered appropriate. The ground is relatively even, firm under foot and mown on a regular basis, so is considered to comply with health and safety.
