

Planning Application Additional Information

Section 3

This planning application concerns the relocation of SR Waste Recycling from Unit 5 Oakwell Business Centre, Oakwell View, Barnsley to occupy part of DTS Environmental Ltd, The Recycling Centre, Shaw Lane, Barnsley site.

Section 7

In addition to processing waste, some unprocessed electrical waste will be stored outside in suitable weather proof containers – waiting processing. Also various non-hazardous metals and plastics will be store in suitable containers. At the present time we use 1m³ plastic water tanks (IBC container) for storage.

Section 9

Please see PIC1, 4 & 5 for various views of the building. Pictures 2&3 show the bound fence.

Section 10

Please see attached plan5 for proposed parking & turning arrangements. See PIC6 for the portakabin.

Section 11

The DTS has a toilet block on their land and we will use that facility.

Section 12

The DTS site has an interceptor tank for surface water.

Section 22

In simple terms SR Waste Recycling Ltd accepts electrical waste of the type normally found in offices (PCs, printers, microwaves, photocopiers etc.). These are then systematically dismantled until only resalable plastic and metals are left. These are then bulked up and sold on. The majority of the work is done with simple hand tools, but a baler is also used to compact the plastic. A small electric forklift is used to load and unload vehicles.

The 75,500 tonne limit is simply the maximum tonnage we can accept per year on our Waste Management License. Current throughput is 10tonnes per month.
