

29-31 Agnes Road, Barnsley – Landscaping Details

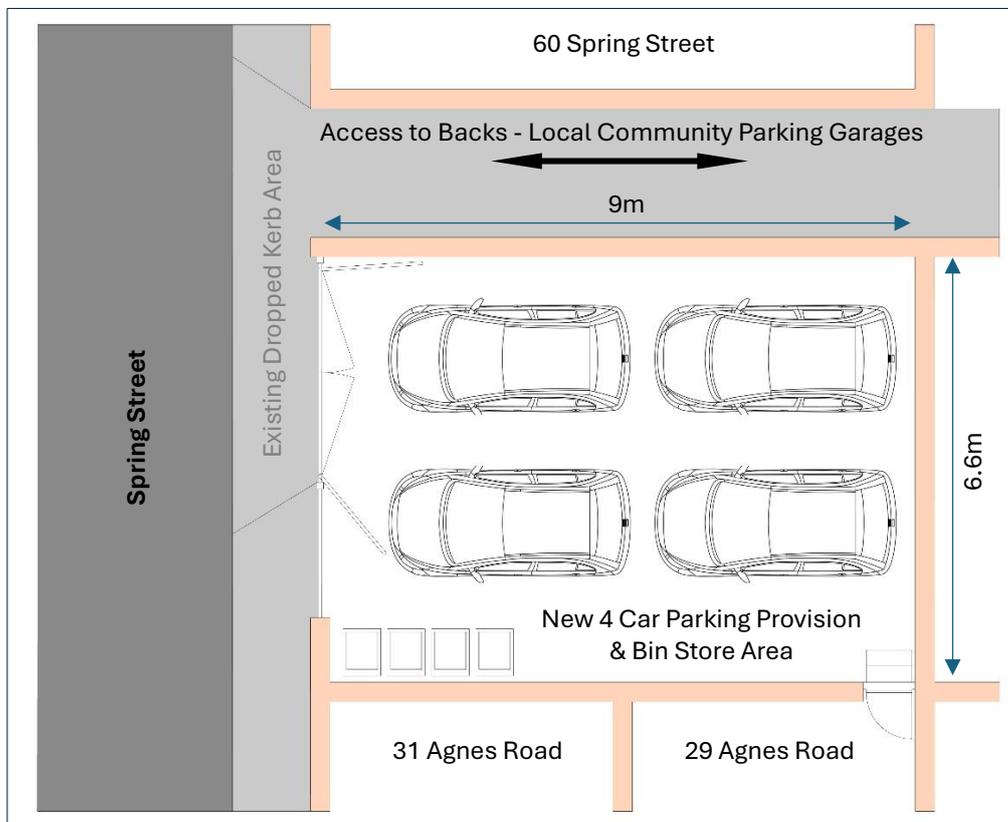

The property benefits from a rear yard, for use by 29 Agnes Road only, which has recently been refurbished with the existing garage and out buildings demolished, the curtilage tidied up, new concrete surface installed and new gates/railings provided to secure the site and its access off Spring Street. This updated secure rear yard now has off-street parking provision for 4 vehicles, plus cycles/motorbikes and safe bin storage, supplemented by local on-street parking capacity around the 29-31 Agnes Road curtilage. Drop kerbs were already existent along the Spring Street access and this redevelopment of the backyard has made a significant difference to the safety of the backyard and amenity of the area. Pre and post pictures along with a layout plan are presented ahead to aid understanding of the new enhanced arrangements/landscaping work.
