Dear Steve

**RE: FULL PLANNING APPLICATION – RESIDENTIAL DEVELOPMENT OF 19NO. DWELLINGS
ON LAND AT FORMER WARD GREEN PRIMARY SCHOOL, HIGH RIDGE, WARD GREEN,
BARNSELY, S70 5HL**

APPLICATION REF:- 2011/0365

I enclose a paper copy and CD Rom of a further report in relation to the residential development application on the former Ward Green Primary School site in Ward Green. This has only just been completed and primarily establishes the ground and foundation context for the building project. However, you will see that there are proposals regarding the mitigation and remediation in relation to elevated concentrations of Polycyclic Aromatic Hydrocarbons (PAH) and in association with ash and clinker.

Yours sincerely

Clive Brook FRTPI
Senior Planning Consultant
