

## GRANT OF LISTED BUILDING CONSENT

PLANNING (LISTED BUILDINGS AND CONSERVATION AREAS) ACT 1990

PLANNING (LISTED BUILDINGS AND CONSERVATION AREAS) REGULATIONS 1990

**APPLICATION NO. 2026/0133**

**To** Robin Ashley Architects LLP  
Hawk Works  
105  
Mary Street  
Sheffield  
S1 4RT  
United Kingdom

**Proposal** Listed Building Consent to historic barns. Carefully remove the area of bulging wall in Barn #7 and rebuild using the salvaged stone externally with a new footing if required. Carry out local underpinning to the jamb of the main door opening. Repair and strengthen internal wall within Barn #7. Carefully remove the external walls of Barn #8 and rebuild using the salvaged stone externally with a new footing if required. Carry out a local repair to the head of the archway in the intermediate wall in Barn #8. Carry out a specialist inspection of roof timbers for beetle and fungal attack and carry out check calculations. Replace timbers as required for structural safety. For both barns, carefully remove corrugated cementitious roofing sheet and provide new roof covering of natural slate, on softwood battens on permeable underlay supported by the new carcassing, retaining as much of the timber primary structure as possible.

**At** Far West Thorpe Farm, Halifax Road, Penistone, Sheffield, S36 7EY

**Consent is granted** for the proposals which were the subject of the Application and Plans registered by the Council on 24/03/2026 and described above.

The approval is subject on compliance with the following conditions:

- 1 The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.  
**Reason: In order to comply with the provision of Section 18 of the Planning (Listed Buildings and Conservation Areas) Act 1990**

- 2 The development hereby approved shall be carried out strictly in accordance with the amended plans and specifications as approved unless required by any other conditions in this permission:

Proposed Plans - drawing no 24-39-304 - amended 23.04.26

**Reason: In the interests of the visual amenities of the locality in accordance with Local Plan Policy HE3 Developments Affecting Historic Buildings.**

- 3 No development, including any demolition and groundworks, shall take place until the applicant, or their agent or successor in title, has submitted a Written Scheme of Investigation (WSI) that sets out a strategy for archaeological investigation and this has been approved in writing by the Local Planning Authority. The WSI shall include:
- The programme and method of site investigation and recording.
  - The requirement to seek preservation in situ of identified features of importance.
  - The programme for post-investigation assessment.
  - The provision to be made for analysis and reporting.
  - The provision to be made for publication and dissemination of the results.
  - The provision to be made for deposition of the archive created.
  - Nomination of a competent person/persons or organisation to undertake the works.
  - The timetable for completion of all site investigation and post-investigation works.

Thereafter the development shall only take place in accordance with the approved WSI and the development shall not be brought into use until the Local Planning Authority has confirmed in writing that the requirements of the WSI have been fulfilled or alternative timescales agreed.

**Reason: To ensure that any archaeological remains present, whether buried or part of a standing building, are investigated and a proper understanding of their nature, date, extent and significance gained, before those remains are damaged or destroyed and that knowledge gained is then disseminated in accordance with Local Plan Policy HE6.**

- 4 Areas of repaired or re-built wall shall refer to the historic building record (as per condition 3) to ensure the style of coursing, the pointing detail (where present) and the overall appearance of the repaired walls matches the original and existing appearance.

**Reason: In accordance with Local Plan Policy HE3 and HE6.**

- 5 Details of the works to the roof structure and the extent of its repair including replacement or supplementary timber shall be submitted and agreed in writing before the commencement of works. The scheme shall proceed in accordance with the approved details.

**Reason: In the interests of preserving and enhancing the listed buildings in accordance with Local Plan Policy HE3.**

- 6 A 1x1m sample panel of repaired / rebuilt wall with pointing details shall be prepared and agreed in writing before the commencement of main works. The scheme shall proceed in accordance with the approved works and the sample shall be retained on site for the duration of the works.

**Reason: In the interests of preserving and enhancing the listed buildings in accordance with Local Plan Policy HE3.**

- 7 Building, bedding and pointing mortar shall utilise a hot mix lime as follows:  
The mortar gauging shall include 1 part unslaked powdered quicklime (or 15mm kibble) to 3 parts well graded river sand. The aggregate will require sieving to ensure compatibility with the joint width / height (where use for pointing). When pointing, the mortar shall be as dry as possible before starting at the top of the wall and working downwards to allow cleaning below. The mortar should be packed as tightly as possible into the back of the joint using and pointing key or spatula and finished to a flush or slightly rebated joint. Thereafter pointing should be mist sprayed to control drying and shall be protected from sun, wind, and rain. Hessian sacking should be used to assist protection and work in temperatures below 5 degrees C should be avoided. Once the pointing has gone off and achieved a green set (resistant to a fingernail), it should be brushed and tamped back to close any fine cracks and consolidate the aggregate. Any final cleaning required can be done at this point.  
**Reason: In the interests of preserving and enhancing the listed buildings in accordance with Local Plan Policy HE3.**
- 8 The roof shall be covered with natural sandstone roofing slates laid in diminishing courses with ridge tiles to match  
**Reason: In the interests of the historical significance of the building in accordance with Local Plan Policy HE1**

## **Informative(s)**

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 (as amended), the Local Planning Authority have, where possible, made a pre-application advice service available, and otherwise actively engaged with the applicant in dealing with the application in a positive and proactive manner.

Please be aware that the Council monitors construction sites and open land within the vicinity of such sites in an attempt to prevent fly tipping (i.e. unauthorised deposit of waste on land), which is illegal under the Environmental Protection Act 1990. The penalties for fly-tipping can include:

- a fine of up to £50,000 and
- up to six months imprisonment on conviction.

Therefore, if necessary, please ensure that all demolition waste and waste associated with the construction of any development is disposed of via approved methods and that documents are retained to prove this.

Signed:

Dated: 3 June 2026

A handwritten signature in black ink, consisting of a stylized, circular scribble followed by a horizontal line extending to the right.

**Garry Hildersley**

Head of Planning, Policy & Building Control  
Growth & Sustainability Directorate

The grant of this consent does not constitute or imply permission, approval or consent by the Local Authority for any other purpose.

## **NOTES:-**

### **Appeals to the Secretary of State**

If you are aggrieved by the decision of the Council to grant permission for the proposed development subject to conditions then you can appeal to the Secretary of State for the Environment, Transport and Regions under Section 78 of the Town and Country Planning Act. If you want to appeal, then you must do so within six months of the date of this notice, using a form which you can get from The Planning Inspectorate, Room 3/24 Hawk Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the provisions of the development order and to any directions giving under the order. In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based its decision on a direction given by him.

### **Purchase Notices**

If either the Local Planning Authority or the Secretary of State for the Environment, Transport and Regions refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of part VI of the Town and Country Planning Act 1990.

### **Compensation**

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference to the application to him. These circumstances are set out in Sections 114 and related provisions of the Town and Country Planning Act 1990.

# STATUTORY BIODIVERSITY NET GAIN CONDITION

## DEEMED CONDITION

**(As required Schedule 7a of the Town and Country Planning Act 1990 (as amended) and inserted by the Environment Act 2021)**

Development may not be begun unless:

1. A Biodiversity Gain Plan has been submitted to the planning authority; and
2. The Local Planning Authority has approved the plan.

The Biodiversity Gain Plan must include:

- a) information about the steps taken or to be taken to minimise the adverse effect of the development on the biodiversity of the onsite habitat and any other habitat;
- b) the pre-development biodiversity value of the onsite habitat;
- c) the post-development biodiversity value of the onsite habitat;
- d) any registered offsite biodiversity gain allocated to the development and the biodiversity and the biodiversity value of that gain in relation to the development;
- e) any biodiversity credits purchased for the development; and
- f) any such other matters as the Secretary of State may by regulations specify.

In addition, under Articles 37C(2) and 37C(4) of The Town and Country Planning (Development Management Procedure) (England) Order 2015, the following specified matters are required, where development is not to proceed in phases:

- g) name and address of the person completing the Plan, and (if different) the person submitting the Plan;
- h) a description of the development and planning permission reference number (to which the plan relates);
- i) the [relevant date](#), for the purposes of calculating the pre-development biodiversity value of onsite habitats and if proposing an earlier date, the reasons for using this earlier date;
- j) [the completed biodiversity metric calculation tool\(s\)](#), stating the publication date of the tool(s), and showing the calculation of the pre-development onsite value on the [relevant date](#), and post-development biodiversity value;
- k) a description of arrangements for maintenance and monitoring of habitat enhancement to which paragraph 9(3) of Schedule 7A to the 1990 Act applies (habitat enhancement which must be maintained for at least 30 years after the development is completed);
- l) (except for onsite irreplaceable habitats) a description of how the biodiversity gain hierarchy will be followed and where to the extent any actions (in order of priority) in that hierarchy are not followed and the reason for that;
- m) pre-development and post-development plans showing the location of onsite habitat (including any irreplaceable habitat) on the [relevant date](#), and drawn to an identified scale and showing the direction of North;
- n) a description of any [irreplaceable habitat](#) on the land to which the plan relates which exist on the [relevant date](#), and any part of the development for which planning permission is granted where the onsite habitat of that part is irreplaceable habitat arrangements for compensation for any impact the development has on the biodiversity of the irreplaceable habitat; and
- o) if [habitat degradation](#) has taken place:
  - i. a statement to this effect,
  - ii. the date immediately before the degradation activity,
  - iii. the completed biodiversity tool showing the calculation of the biodiversity value of the onsite habitat on that date, and
  - iv. any available supporting evidence for the value.

### **INFORMATIVE 1**

When calculating the post-development biodiversity value of a habitat, the Local Planning Authority can only take into account an increase in biodiversity value post-development where it is satisfied that the habitat creation or enhancements delivering the increase will be maintained for at least 30 years after the development is completed. This must be secured either by a planning condition, planning obligation, or conservation covenant

### **INFORMATIVE 2**

The General Biodiversity Gain Condition has a separate legal basis in contrast to other planning conditions and will apply to all planning permissions, unless exempt. The General Biodiversity Gain Condition will therefore not appear on the decision notice along with the list of planning conditions imposed on the application, rather it will be referenced separately.

The General Biodiversity Gain Condition cannot be varied or removed by an application under section 73 of the Town and Country Planning Act. It also cannot be discharged as part of the grant of planning permission.

### **INFORMATIVE 3**

A Biodiversity Net Gain Template can be found here:

<https://www.gov.uk/government/publications/biodiversity-gain-plan>

### **INFORMATIVE 4**

The statutory deemed condition above is relevant to all major applications submitted since 12<sup>th</sup> February 2024 and to all non-major applications submitted after 2<sup>nd</sup> April 2024, unless exempt.

The onus is on the applicant/agent to notify the Local Planning Authority at [developmentmanagement@barnsley.gov.uk](mailto:developmentmanagement@barnsley.gov.uk) if the application was exempt and provide the reasons for the exemption. Exemptions can be found at this link <https://www.gov.uk/guidance/biodiversity-net-gain-exempt-developments>
