Are you seeking consent for works to tree(s) subject to a Tree Preservation Order? ◉ Yes ○ No

Do you know the Tree Preservation Order reference number(s) ○ Yes ◉ No

For works to trees covered by a TPO

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application MUST be accompanied by the necessary evidence to support your proposals (see guidance notes for further details).

1. Condition of the tree(s) - e.g. it is diseased or you have fears that it might break or fall ○ Yes ◉ No

2. Alleged damage to property - e.g. subsidence or damage to drains or drives. ○ Yes ◉ No

Are you wishing to carry out works to tree(s) in a conservation area? ○ Yes ◉ No

Documents and plans (for any tree)

A sketch plan clearly showing the position of trees listed in the question 'Identification of Tree(s) and Description of Works' MUST be provided when applying for works to trees covered by a Tree Preservation Order. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes).

It would also be helpful if you provided details of any advice given on site by an LPA officer.

Are you providing additional information in support of your application (e.g. an additional schedule of work for question 'Identification of Tree(s) and Description of Works')? ◉ Yes ○ No

If Yes, please provide the reference numbers of plans, documents, professional reports, photographs etc in support of your application

Attached are copies of photographs showing the branches overhanging my property. As discussed with the owner, damage to our property has already occured after which we have replaced a tiled roof with a metal roof to stop any further damage occuring to our property. We have also asked a year ago that a dead tree be removed from overhanging our property and was told that would be taken down in the Spring of 2021 but was not. The owner has had other trees removed from other neighbouring gardens but these trees. I am therefore asking that these trees be pruned to lessen the impact of falling leaves and branches onto our property.

5. Identification of Tree(s) and Description of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out.

You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work.

Where trees are protected by a Tree Preservation Order, please number them as shown in the First Schedule to the Tree Preservation Order where this is available. You should use the same numbering on your sketch plan (see help for sketch plan requirements).

Please provide the following information:
- Tree species
- The number used on the sketch plan); and
- A description of the proposed works.

5. Identification of Tree(s) and Description of Works

Where trees are protected by a Tree Preservation Order you must also provide:
- Reasons for the work; and where trees are being felled
- Proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

e.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with one standard ash in same position.

○ Yes ◉ No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
