

BARNSELEY

Metropolitan Borough Council

GRANT OF OUTLINE PLANNING PERMISSION

TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO. 2011/1453

To Peter Thompson
Linwood
Barnsley Road
Dodworth
Barnsley
S75 3JR

DESCRIPTION Residential development of 17no apartments in three storey block (Outline)
(Extension of time limit of application 2008/1390)

LOCATION Spencer Garage, Littleworth Lane, Lundwood, Barnsley, S71 5RG

Permission is granted for the proposals which were the subject of the Application and Plans registered by the Council on 01 December 2011 and described above.

The approval is subject on compliance with the following conditions:

- 1 Application for approval of the matters reserved in Condition No. 2 shall be made to the Local Planning Authority before the expiration of three years from the date of this permission, and the development, hereby permitted, shall be begun before the expiration of two years from the date of approval of the last of the reserved matters to be approved.
Reason: In order to comply with the provision of Section 92 of the Town and Country Planning Act 1990.
- 2 The development hereby permitted shall not be commenced unless and until approval of the following reserved matters has been obtained in writing from the Local Planning Authority:-
 - (a) the layout of the proposed development.
 - (b) scale of buildings
 - (c) the design and external appearance of the proposed development.
 - (d) means of access
 - (e) landscaping**Reason: In order to allow the Local Planning Authority to assess the details of the reserved matters with regard to the development plan and other material considerations.**

The grant of this consent does not constitute or imply permission, approval or consent by the Local Authority for any other purpose.

Signed *Stephen Moralee*
Assistant Director, Planning and Regulatory Services

Dated 16 February 2012

- 3 Detailed plans shall accompany the reserved matters submission indicating existing ground levels, finished floor levels of all dwellings and associated structures, road levels and any proposed alterations to ground levels. Thereafter the development shall proceed in accordance with the approved details.

Reason: To enable the impact arising from need for any changes in level to be assessed in accordance with Core Strategy Policy CSP 29, Design.

- 4 No development shall take place until:

(a) Full foul and surface water drainage details, including a scheme which reduces surface water run-off bellows present Greenfield rates and a programme of works for implementation, have been submitted to and approved in writing by the Local Planning Authority;

(b) Porosity tests are carried out in accordance with BRE 365, to demonstrate that the subsoil is suitable for soakaways;

(c) Calculations based on the results of these porosity tests to prove that adequate land area is available for the construction of the soakaways;

Thereafter no part of the development shall be occupied or brought into use until the approved scheme has been fully implemented. The scheme shall be retained throughout the life of the development, unless otherwise agreed in writing with the Local Planning Authority.

Reason: To ensure proper drainage of the area

- 5 Construction or remediation work comprising the use of plant, machinery or equipment, or deliveries of materials shall only take place between the hours of 0800 to 1800 Monday to Friday and 0900 to 1400 on Saturdays and at no time on Sundays or Bank Holidays.

Reason: In the interests of the amenities of local residents

- 6 No development works shall begin until a report, endorsed by a competent engineer experienced in ground contamination and remediation, has been submitted and agreed with the Local Planning Authority. The report shall, amongst other matters, include the following:-

1. A survey of the extent, scale and nature of contamination.

2. An assessment of the potential risks to human health, property, adjoining land, groundwaters and surface waters, ecological systems and archaeological sites and ancient monuments.

3. An appraisal of remedial options, and proposal of the preferred option(s).

4. A remediation statement summarising the works to be undertaken (if required).

The above must be conducted in accordance with DEFRA and the Environment Agency's 'Model Procedures for the Management of Land Contamination, CLR 11'.

The approved remediation scheme must be carried out in accordance with its terms prior to the commencement of development. The Local Planning Authority must be given two weeks written notification of commencement of the remediation scheme works. Prior to occupation of the dwellings/commencement of the use, a validation report that demonstrates the effectiveness of the remediation carried out must be submitted to and approved in writing of the Local Planning Authority.

Reason: To ensure that the site is properly assessed for ground contamination and subsequently suitably remediated to enable the site to be subsequently safely developed and occupied and in accordance with Core Strategy Policy CSP 39, Contaminated and Unstable Land.

- 7 No development shall take place, including any works of demolition, until a Construction Method Statement has been submitted to, and approved in writing by, the Local Planning Authority. The approved Statement shall be adhered to throughout the construction period. The Statement shall provide for:
- The parking of vehicles of site operatives and visitors
 - Means of access for construction traffic
 - Loading and unloading of plant and materials
 - Storage of plant and materials used in constructing the development
 - The erection and maintenance of security hoarding
 - Wheel washing facilities
 - Measures to control the emission of dust and dirt during construction
 - Measures to control noise levels during construction
- Reason: In the interests of highway safety, residential amenity and visual amenity.**
- 8 The dwelling(s) shall achieve a Code Level 3 in accordance with the requirements of the Code for Sustainable Homes: Technical Guide (or such national measure of sustainability for house design that replaces that scheme). No dwelling shall be occupied until a Final Code Certificate has been issued for it certifying that Code Level 3 has been achieved.
- Reason: In the interest of sustainable development in accordance with policy CSP 2 'Sustainable construction'.**
- 9 The development shall not begin until a scheme for the provision of affordable housing as part of the development has been submitted to and approved in writing by the Local Planning Authority. The affordable housing shall be provided in accordance with the approved scheme and shall meet the definition of affordable housing in Annex B of PPS3 or any future guidance that replaces it. The scheme shall include:
- i. The numbers, type, tenure and location on the site of the affordable housing provision to be made which shall consist of not less than 15% of housing units/bed spaces. This should be in accordance with the most current needs assessment for the area and in accordance with policy CSP 15.
 - ii. The timing of the construction of the affordable housing and its phasing in relation to the occupancy of the market housing;
 - iii. The arrangements for the transfer of the affordable housing to an affordable housing provider[or the management of the affordable housing] (if no RSL involved);
 - iv. The arrangements to ensure that such provision is affordable for both first and subsequent occupiers of the affordable housing; and
 - v. the occupancy criteria to be used for determining the identity of occupiers of the affordable housing and the means by which such occupancy criteria shall be enforced.
 - vi. Arrangements to ensure affordable housing can be provided elsewhere within the local area should no transfer of the affordable housing to an affordable housing provider prove possible within a reasonable period of time
- Reason: To ensure the satisfactory provision of affordable housing which responds to an up-to-date assessment of local housing need in accordance with the Adopted Core Strategy policy CSP 15 Affordable Housing.**

Reason(s) for Granting Permission

- 1 Unique The original application was assessed against the partially saved Unitary Development Plan, having full regard to National and Regional policy which has since been published it is not considered that there are any material considerations which would suggest that the extension to the application should not be allowed.

Informative(s)

- 1 The proposed development lies within an area which could be subject to current coal mining or hazards resulting from past coal mining. Such hazards may currently exist, be caused as a result of the proposed development, or occur at some time in the future. These hazards included:

- Collapse of shallow coal mine workings;
- Collapse of, or risk of entry into, mine entries (shafts and adits);
- Gas emissions from coal mines including methane and carbon dioxide;
- Spontaneous combustion or ignition of coal which may lead to underground heatings and production of carbon monoxide;
- Transmission of gases into adjacent properties from underground sources through ground fractures;
- Coal mining subsidence
- Water emissions from coal mine workings.

Applicants must take account of these hazards which could affect stability, health & safety, or cause adverse environmental impacts during the carrying out their proposals and must seek specialist advice where required. Additional hazards or stability issues may arise from development on or adjacent to restored opencast sites or quarries and former colliery spoil tips.

Failure to obtain Coal Authority permission for such activities is trespass, with the potential for court action. In the interests of public safety the Coal Authority is concerned that risks specific to the nature of coal and coal mine workings are identified and mitigated.

The above advice applies to the site of your proposal and the surrounding vicinity. You must obtain property specific summary information on any past, current and proposed surface and underground coal mining activity and other ground stability information in order to make an assessment of the risks. This can be obtained from The Coal Authority's Property Search Service on 0845 762 6848 or at www.groundstability.com

- 2 The decision to grant planning permission has been taken having regard to the policies and proposals in the adopted Core Strategy and saved policies of the Barnsley Unitary Development Plan set out below and to all relevant material considerations, including Supplementary Planning Guidance:

Core Strategy Policies
CSP2 'Sustainable Construction
CSP4 'Flood Risk'
CSP5 'Including renewable Energy in Developments'
CSP14 'Housing Mix and Efficient Use of Land'

CSP 15 'Affordable Housing'
CSP26 'New Development and Highway Improvement'
CSP29 'Design'
CSP40 'Pollution Control and Protection'

This informative is only intended as a summary of the reason for granting planning permission. For further details on the decision please refer to the application file, by contacting 01226 772593.

- 3 The granting of planning permission does not in any way infer that consent of the landowner is given. Therefore the consent of all relevant landowners is required before proceeding with any development including that of the Council as landowner.

If it should transpire that the applicant does not own any of the land included in this consent then it is the responsibility of the applicant to seek all necessary consents and approvals of the landowner.

NOTES:-

Appeals to the Secretary of State

If you are aggrieved by the decision of the Council to grant permission for the proposed development subject to conditions then you can appeal to the Secretary of State for the Environment, Transport and Regions under Section 78 of the Town and Country Planning Act. If you want to appeal, then you must do so within six months of the date of this notice, using a form which you can get from The Planning Inspectorate, Room 3/24 Hawk Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the provisions of the development order and to any directions giving under the order. In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based its decision on a direction given by him.

Purchase Notices

If either the Local Planning Authority or the Secretary of State for the Environment, Transport and Regions refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of part VI of the Town and Country Planning Act 1990.

Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference to the application to him. These circumstances are set out in Sections 114 and related provisions of the Town and Country Planning Act 1990.
