Consultation Assessment and Justification

Hi,

I would like to object to this planning application.

This proposal represents severe overdevelopment that will directly harm the local community. The site plans introduce two new site entrances directly onto Back Lane West.

This road is already in a state of chronic parking stress, serving as the primary parking area for residents of the High Street terrace houses who have no off-street options.

Adding 6 large, three-storey family homes with multiple vehicles, alongside two new access points, will destroy vital parking spaces, compromise highway safety, and cause traffic gridlock.

Furthermore, placing tall three-storey houses on a street almost entirely characterised by single-storey bungalows is completely out of character with the area.

I would like this to be called in to the planning regulatory board.

Many thanks.

Cllr Stefan McCrum
