Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

Change of use from Use Class C3 (dwellinghouse) to Use Class C2 (Residential Institutions) to operate as a residential care home for adults and young adults with autism and learning disabilities, together with extensions, alterations and conversion of outbuildings, including the erection of a single-storey extension to provide M4(3)(2)(b) wheelchair accessible accommodation.

Has the work or change of use already started?

- Yes
 No

Land where contamination is suspected for all or part of the site

- Yes
 No

A proposed use that would be particularly vulnerable to the presence of contamination

- Yes
 No

Materials

Does the proposed development require any materials to be used externally?

- Yes
 No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:

Walls

Existing materials and finishes:

Facing brickwork to match the existing main house and annexe. Weatherboarding/cladding to Outbuilding 2.

Proposed materials and finishes:

Facing brickwork to match the existing property. New brickwork to the extension of Outbuilding 2 to match the existing property.

Type:

Roof

Existing materials and finishes:

Pitched tiled roof to the main house and annexe. Pitched composite slate roof to Outbuilding 2.

Proposed materials and finishes:

Pitched tiled roof to the main house and annexe (retained). New flat roof dormer to the rear of the main house/annexe, finished in a single-ply membrane or GRP. New flat roof to the extension of Outbuilding 2, also finished in a single-ply membrane or GRP to match the new dormer and existing flat roof areas where applicable.

Type:

Windows

Existing materials and finishes:

White uPVC windows and doors to the main house and annexe. uPVC windows to Outbuilding 2.

Proposed materials and finishes:

White uPVC or aluminium windows and doors to match the existing property. New windows and doors to Outbuilding 2 and the new extension to match the style and colour of the existing windows on the main house.

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- Yes, on the development site
 Yes, on land adjacent to or near the proposed development
 No

b) Designated sites, important habitats or other biodiversity features

- Yes, on the development site
 Yes, on land adjacent to or near the proposed development
 No

c) Features of geological conservation importance

- Yes, on the development site
 Yes, on land adjacent to or near the proposed development
 No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- Yes
 No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:

The proposed development qualifies for the de minimis exemption under the Biodiversity Net Gain regulations because the area of onsite habitat impacted by the development is below the 25 square metre threshold. The proposals primarily involve the conversion and alteration of existing buildings. The only element creating new floorspace is a modest single-storey extension to the existing northern outbuilding (approximately 43m² gross external floor area). Of this, approximately 14m² is located on low-quality garden grass, with the remainder constructed on existing hardstanding. The development does not result in the loss of any trees, hedgerows, or other significant onsite habitat. No other new buildings or extensions are proposed.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Foul Sewage

Please state how foul sewage is to be disposed of:

- Mains sewer
- Septic tank
- Package treatment plant
- Cess pit
- Other
- Unknown

Are you proposing to connect to the existing drainage system?

- Yes
- No
- Unknown

If Yes, please include the details of the existing system on the application drawings and state the plan(s)/drawing(s) references

The proposed development will connect to the existing foul drainage system on site. No new external foul drainage points are proposed. Any new internal drainage will connect to existing drainage points or to relocated connection points where required to suit the final internal layouts. Details of the existing drainage layout and proposed connection points will be confirmed and shown on drawings submitted at the Building Regulations stage.

Waste Storage and Collection

Do the plans incorporate areas to store and aid the collection of waste?

- Yes
- No

If Yes, please provide details:

Dedicated areas for the storage of general waste and recyclable waste will be provided within Outbuilding 1. This building will accommodate secure, screened bin storage facilities for both general waste and recyclables, with easy access for collection vehicles via the proposed access arrangements shown on the Site Plan as Proposed (Drawing No. GNH1-AVL-05-00G-DR-A-001-P01).

Have arrangements been made for the separate storage and collection of recyclable waste?

- Yes
- No

Trade Effluent

Does the proposal involve the need to dispose of trade effluents or trade waste?

- Yes
- No

Residential/Dwelling Units

Does your proposal include the gain, loss or change of use of residential units?

- Yes
- No

Please note: This question is based on the current housing categories and types specified by government.

If your application was started before 23 May 2020, the categories and types shown in this question will now have changed. We recommend that you review any information provided to ensure it is correct before the application is submitted.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
