

I object to the above applications by reason of the following

- ·the loss of wildlife
- ·the loss of wildlife habitat
- ·it is a scientific fact the green fields are a hugely reduce carbon dioxide from the atmosphere and in that process produce oxygen
- ·reducing any green fields/spaces will add to the catastrophic threat to the very existence of planet Earth
- ·the reduction of any green fields/spaces threatens the future existence of the future generations of our children
- ·the above planning applications are not for the benefit of the very existence of life
- ·the above applications are in the pursuit of monetary gain by persons ignoring the effects of global warmin
- ·How many warnings of Global Warming do developers and short sighted politicians need
- ·there are acre's of brown land in South Yorkshire that can and must be used for any building projects
