

Heritage Statement

Stoneroof dates back to the mid 17th century, a date of 1652 is carved in a lintol above the passage at the rear of the main building. At different times it has had extensions to the south aspect, most recently in about 1997 when the additional small buildings were made into one which forms the kitchen.

The building is of stone and some of the windows on the north aspect retain stone mullions.

Stoneroof was once joined to the property next door, Shore Hall Farm and the two were known as Shore Hall. The two buildings are now distinct and are seperated by the passage.

There are three other dwellings within this small area of Millhouse Green. The three consist of a renovated Railway Crossing Cottage, a brick built bungalow of around the 1960s, and a stone built bungalow of 1970s style.

All have differing window styles and general appearance.

The windows currently installed at Stoneroof are of white UPVC or white painted timber. These do nothing whatsoever for the appearance of the property.

Replacement of these with hardwood would, in my view dramatically improve the visual appearance of the building and street scene. I would like to replace those in the kitchen, also white UPVC, when funding is available in the future.

I am seeking to restore some of the original character to Stoneroof by replacing windows which are currently an eyesore.

I recently began work to renovate a building within the curtilege of Stoneroof and windows installed in that building have been viewed and approved. My intention would be to install windows of a similar standard in Stoneroof.
